The 16th May 1919.

No. 3.—Notification.—The following draft of an amendment, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864, (Bengal Act V of 1864), the Governor in Council intends to make in the schedule of tolls in force on the Calcutta canals and Tolly's Nala and in the rules for the management of navigation thereon, published in notification No. 7, dated the 11th May 1915 (at pages 903-05 of Part I of the *Calcutta Gazette* of the 12th *idem*), is hereby published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 2nd July 1919, and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft amendment.

Delete items 13 and 15 and *read* item 14 as item 13.

Add as item 14.

14. (*1*) During the period of closure of the Tolly's Nala at Samookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *viâ* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(*2*) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(*3*) (*a*) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(*b*) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment

(*c*) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(4) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

RESOLUTION.

The following papers regarding reciprocity in matters of immigration between India and the Dominions are published for the information of those interested in the subject :—

Extract from a letter from the Colonial Office to the India Office, No. 35892, dated London the 7th August 1918, and annexures.

From Colonial Office to India Office.

No. 35892. Downing Street,
SIR, 7th August 1918.

I am directed by Mr. Secretary Long to transmit to you, to be laid before Mr. Secretary Montagu, copies of an extract from the Fifteenth Day's

Proceedings at the Imperial Conference, together with copies of the memorandum prepared by Sir S. P. Sinha.

I am, &c.,

The Under Secretary of State for India. HENRY LAMBERT.

ANNEX. 1:—*Memorandum by Sir S. P. Sinha.*

The views and recommendations of the Indian representatives on the position of Indians in the self-governing Dominions were placed before the War Conference last year in the form of a memorandum, which appears as an annexure to the printed report of the Conference. The subject was discussed on Friday the 27th April 1917, and the "Conference unanimously accepted the "principle of reciprocity of treatment between India and the Dominions, and "recommended the memorandum to the favourable consideration of the "Governments concerned". It is mainly with a view to eliciting information as to whether any action has been actually taken, and, if not, how soon it is likely to be taken, by the Governments concerned to give effect to our suggestions that a few of the outstanding questions are mentioned in the present note.

2. The Indian grievances dealt with in the last memorandum fall conveniently under the following three groups:—

(1) Treatment of Indians who are already settled and resident in the self-governing Dominions.

(2) The difficulties and disadvantages of Indians intending to visit the Dominions not with the object of settlement but for purpose of travel, education, or business.

(3) The question of future immigration to the Dominions.

3. As regards the difficulties of resident Indians, the disability imposed on the Sikh settlers in Canada, numbering about 4,000 men, of not being allowed to bring their wives and minor children to live with them is a very real and serious hardship and, as was pointed out in last year's note, has caused acute dissatisfaction amongst perhaps the most prominent martial race in India, and those who have flocked with the greatest alacrity to the Indian Army for the defence of the Empire. This unfair and unnatural prohibition is the more galling because the Indians resident in South Africa have, since the passing of the Indians Relief Act of 1914, the privilege of introducing into the Colony one wife, as well as her minor children. The Japanese have the right of taking not only their wives, but also their domestic servants. No further time should be lost in removing the prohibition, which appears to be in force in Australia also.

4. Of the Indians settled in the self-governing Dominions, by far the largest number is domiciled in South Africa. Cape Colony has an Indian population of 6,606, Transvaal of 10,048, Orange Free State of 106, and Natal of 133,031 souls. The Indians Relief Act of 1914 has removed many disabilities, but from reliable materials placed before us it appears that there are still many substantial grievances and disabilities which are not merely of an administrative character, as General Smuts seemed to be under the impression last year, but are based upon already existing or impending statutory enactments.

The following would appear to be some of the principal grievances of South African Indians:—

(1) *Trading Licences.*—It is necessary to obtain a licence in order to be able to carry on any trade or business in South Africa. Each Province has its own trading licence legislation, and the tendency recently has been in every Province to transfer the control of licences from the Government to municipalities. Although there is a system of appeals from the decisions of the municipalities, *e.g.*, in Natal to Town Councils or to Licensing Appeal Boards, the right of appeal to the Courts is extremely limited. Thus, in Natal, against refusals of application for new licences there is

a right of appeal in matters of procedure, but not of facts, to the Provincial Division of the Supreme Court, whereas in cases of refusal to renew licences there is a right of appeal on facts also. It is generally contended that the municipalities arbitrarily refuse to grant licences to Indians with the improper and indirect object of destroying Indian trade, and the Indian newspapers are full of such instances. The trading rights of Indians in South Africa are a vital issue. If the Indian community remains at the mercy of their European rivals in respect of the right of their members to earn an honest livelihood by trade it is only a question of time for the whole community to become impoverished and be reduced to industrial helotry. The remedy seems to be to give the fullest right of appeal in all cases of refusal of licences to the Provincial Division of the Supreme Court—on questions of fact as well as of procedure.

(2) *Parliamentary and Municipal Franchise.*—As observed in last year's note, there are stronger and more obvious grounds for extending the municipal franchise to the Indians resident in South Africa than the Parliamentary franchise. It might be pointed out, however, that we are nearer to the introduction of representative institutions in India this year than we were last year, and therefore the argument for depriving the African Indians of the franchise on the ground of their coming from a country where representative institutions do not exist will carry still less weight now, and there is a strong case for granting the franchise, at least to the richer Indian merchants. Their claim to the extension of the municipal franchise in all the States seems to be much stronger, as this right is enjoyed in Natal and Cape Colony, where some Indians are reported to be discharging municipal functions to their credit. The special necessity for the grant of the municipal franchise will appear from what has already been stated with regard to trade licences.

(3) *The Ownership of Land.*—Unlike their compatriots in Natal and at the Cape, Transvaal Indians, under he old Republican Law, 3 of 1885, remain under the disability that they are denied the right to own fixed property, *i.e.*, from having the legal ownership registered in their own names. The system of indirect ownership, in other words nominal European ownership, originally suggested by the Republican Government themselves, prevailed until quite recently, and is still occasionally adopted. The process is roundabout, cumbrous and expensive, but the facts are notorious, and the circumstances are legally recognised by the Courts.

Since about the year 1914, the practice has grown up of forming and registering, under the Transvaal Companies Act, 1909, small private companies, with limited liability, whose members are all Indians (frequently an Indian and his wife), and possessing an independent legal *persona*, for the purpose, amongst other things, of acquiring fixed property. All these transactions have recently received judicial recognition. It is said that attempts are now being made by interested parties to deprive Indians of this right of indirect ownership of fixed property. Recently a question was put on the subject in Parliament, and the Government spokesman replied that it was intended to examine into the question when the new companies law was under consideration. Advantage has frequently been taken by Indians of these indirect, but quite legal methods to open business in townships whose private regulations prohibit the sale of stands to Indians, which, in themselves, are intended indirectly to compel Indians to reside and trade in special locations, which, again, would mean financial ruin to most of them, and against which attempt the Indian community has fought since long before the Boer War.

On the contrary, the prohibition against Indian ownership of fixed or landed property should be repealed by Parliament,

on the grounds that it tends to foster insincerity on all sides, to deprive Indians of some of the elementary rights and responsibilities of citizenship, which are not denied even to the aboriginal natives and other non-Asiatic coloured peoples of the Province, and which are possessed by their compatriots in the coast Provinces, and especially in Natal, where the bulk of the Indian population of the Union is to be found. Transvaal Indians ought not to be compelled to regard themselves as possessing an inferior status, in this respect, to their compatriots resident in the coast Provinces, and such a statute as Law 8 of 1885 is an anachronism and opposed to the spirit of modern legislation.

(4) *Railway Regulations.*—In the Transvaal, for a number of years past, the policy of racial segregation has been enforced on the railways. Special legislation to that end was sought in 1910, but was strenuously opposed by the Indian community, with the result that certain regulations were eventually agreed to, embodied in the papers published in Blue Book [Cd. 5363] of 1910 (pages 102-5 and 114), at a time when the Indian community was in a relatively weak position, having its energies fully engaged in the passive resistance struggle, which was then at its height, and which left the community powerless effectively to resist further encroachments upon its liberties. But the arrangements therein referred to were of purely local application, and were not intended in any way to affect the position or diminish the rights of Indians in the other Provinces. Recently, however, regulations applicable throughout the Union have been published, some of which have already been withdrawn in deference to strong Indian opposition, whilst others remain, in spite of that opposition, not only embodying provisions contained in the old Transvaal arrangement, but going much farther and extending to other Provinces of the Union a racial discrimination not hitherto known there. The Indian community for a long period of years has consistently fought against statutory discrimination based upon racial distinction. Segregation in travelling would only be tolerable if designed by statute where exactly equal opportunities and facilities were provided for the different races affected. This is impossible for financial reasons, no such remedy is available. Apart from this the situation in the Transvaal, and in South Africa generally, is very different from what it was in 1910, and less than ever are Indians disposed to depart from the principle of equality under the law, which they regard as fundamental in the British Constitution, and for which they have suffered enormously in the past, and are prepared to suffer for again. Not only ought the position of Indians elsewhere in the Union not be reduced to the level of that in the Transvaal, but the latter should be raised to the highest level anywhere in the Union.

The settlement of these and other outstanding difficulties should receive the earnest attention of the Provincial Governments and the Union Government. It should not be forgotten that the bulk of the Indian settlement in South Africa is the result of the action of the South Africans themselves, and Natal, where the majority are domiciled, owes much of its prosperity to Indian labour. "The whole of Durban was absolutely built up by the Indian popula-" tion," said Sir Leige Hewlett, ex-Prime Minister of Natal, in 1903. In his farewell speech at Pretoria in November 1912, Mr. Gokhale appealed to the European community in the following words: "You have all the power, and " yours, therefore, is the responsibility for the manner in which the affairs of " this land are administered. You owe it to your good name, you owe it to " your civilization, you owe it to the Empire of which you are a part and " whose flag stands for opportunities, for progress for all who live under its " protection, that your administration should be such that you can justify it in " the eyes of the civilized world." This noble exhortation points to an angle of vision which is much nearer reality to-day than it was in Mr. Gokhale's time, and after the promise of "peaceful and statesman-like" solution made by General Smuts last year there should really be no difficulty now. In order to

enable the Union Government to deal with Indian problems impartially and promptly, the provision of a convenient agency by which Indian grievances can be brought to the notice of the local Government authorities would be a first step. The appointment of a local agent of the Indian Government at Pretoria should be an advantage both to the Indians in South Africa and the South African Government which has to deal with them.

5. For the group of questions relating to facilities for travel, education or business, it is clear that it should be easy to arrive at a liberal and satisfactory solution almost immediately.

The present position is that the Dominion laws allow persons with good credentials to enter on temporary visits, in Canada as "tourists" and elsewhere by special permits, which presumably are granted in the Dominion concerned. For instance, Australian Circular No. 31 of August 1904 lays down "that any persons *bonâ fide* merchants, students and tourist travellers provided "they are in possession of passports may be admitted. On arrival in the Com- "monwealth the education test in their cases will not be imposed, and such "persons are to be permitted to land without restriction, but, in the event of "their wishing to stay longer than twelve months, an application for a certifi- "cate of exemption should be made before the expiry of the term stating "reason for extended stay."

In the case of *bonâ fide* students intending to study at any of the Australian Universities, the above requirement of special certificate of exemption appears to be quite unnecessary. The question of the Indian student problem in Australasia has assumed special importance, because at the present moment most of the western world is practically almost shut out from Indian students, and will be for some time after the war, on account of the great rise of the cost of living and other causes. Australian Universities are out of the war zone and comparatively cheap, and the Indian student is poor, and the West Australian University is only about nine-and-a-half days from Colombo.

6. Finally, as regards the question of future emigration of Indians to the Colonies for purposes of settlement, there is no change from the position which was taken up last year, that in this matter the Indian British subjects have a right to expect that they should not receive a less favourable treatment than other Asiatic people who are not subjects of the British Empire. But this question is not of any immediate urgency for India, and might well wait future discussion.

On our side we are being pressed to give practical effect to the resolution of last year's Conference.

7. It is only necessary, in conclusion, to emphasize the necessity of definite action and a forward advance in these matters without any more delay. "I do not lose a due sense of proportion," says the Aga Khan in his recent book, "India in Transition," "when I say that one of the deeper causes "if not of discontent or disaffection, at any rate of the distrust of England and "Englishmen that appeared on the surface in India of recent years was the "strained relationship between Indians and their white fellow-subjects in East "Africa. A rankling sense of injustice was aroused by the reservation of the "best lands for Europeans, and by a succession of ordinances and regulations "based on an assumption of race inferiority. It must be remembered that "such a state of injured feeling evokes a subconscious spirit, which, in a few "decades, may lead to results out of all proportion in importance to the "original causes." If the Indian representatives did not press this aspect of the question last year it is not because they did not realise their force or importance, but because they felt that the sympathetic attitude of the overseas Ministers made it unnecessary for any special emphasis to be laid on the racial aspect of these questions. A most excellent start was made last year and the impression created in India was most favourable. It would be a thousand pities if steps were not now taken to give effect and tangible shape to the good understanding and mutual comprehension attained last year. It is also obvious that these important questions should be settled not in any petty huckstering spirit of reciprocity only, far less of militant animosity and retaliation, but on those broad principles of justice and equality which are now more than ever the guiding principles of the British Empire, and which must be the foundations of the mighty Empire round

the shores of the Pacific and the Indian Ocean which are slowly but surely rising before one's eyes.

ANNEX. 2:—*Extract from Proceedings at Imperial War Conference, 24th July 1918.*

CHAIRMAN: Mr. Hughes cannot come this morning, and Sir Robert Borden is away. The first subject on the agenda is Reciprocity of Treatment between India and the Dominions, on which there is a Memorandum by Sir Satyendra Sinha, which has been circulated, and also a draft Resolution, which I understand is the result of a meeting at the India Office. Shall I read the draft Resolution as the basis of discussion?

SIR S. P. SINHA: As you please, Sir.

CHAIRMAN: The Resolution is as follows:—

"The Imperial War Conference is of opinion that effect should now be given to the principle of reciprocity approved by Resolution 22 of the Imperial War Conference, 1917. In pursuance of that Resolution it is agreed that:—

"1. It is an inherent function of the Governments of the several communities of the British Commonwealth including India that each should enjoy complete control of the composition of its own population by means of restriction on immigration from any of the other communities.

"2. British citizens domiciled in any British country, including India, should be admitted into any other British country for visits, for the purpose of pleasure or commerce, including temporary residence for the purpose of education. The conditions of such visits should be regulated on the principle of reciprocity, as follows:—

"(*a*) The right of the Government of India is recognized to enact laws which shall have the effect of subjecting British citizens domiciled in any other British country to the same conditions in visiting India as those imposed on Indians desiring to visit such country.

"(*b*) Such right of visit or temporary residence shall, in each individual case, be embodied in a passport or written permit issued by the country of domicile and subject to *vise* there by an officer appointed by and acting on behalf of the country to be visited, if such country so desires.

"(*c*) Such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement.

"3. Indians already permanently domiciled in the other British countries should be allowed to bring in their wives and minor children on condition (*a*) that not more than one wife and her children shall be admitted for each such Indian, and (*b*) that each individual so admitted shall be certified by the Government of India as being the lawful wife or child of such Indian.

"4. The Conference recommends the other questions covered by the memoranda presented this year and last year to the Conference by the representatives of India in so far as not dealt with in the foregoing paragraphs of this Resolution, to the various Governments concerned with a view to early consideration."

SIR S. P. SINHA: Mr. Long, I am desired by my colleague, the Maharajah of Patiala, who is unfortunately prevented from being present to-day, to express his entire concurrence in what I am going to say to the Conference. I also regret exceedingly the absence of Sir Robert Borden, because I wanted to express in his presence my deep feeling of gratitude for the generous and sympathetic spirit in which he has treated the whole question, both last year

and this year. I desire to express my gratitude to him for the very great assistance he has rendered, to which I think the satisfactory solution which has been reached is very largely due—that is, if the Conference accepts the Resolution which I have the honour to propose.

Sir, the position of Indian immigrants in the Colonies has been the cause of great difficulties, both in the Dominions themselves and particularly in my own country, India. As long ago as 1897, the late Mr. Joseph Chamberlain, in addressing the Conference of Colonial Premiers, made a stirring appeal on behalf of the Indians who had emigrated to the Dominions. The same appeal was made in 1907 by Mr. Asquith, and in 1911. During all this time India was not represented at the Conference, and it is only due to the India Office here to say that they did all they could to assist us. In 1911, the Marquess of Crewe, as Secretary of State for India, presented a memorandum to the Conference, which is printed in the proceedings for that year, and I cannot do better than just read one of the passages from that memorandum, which shows the nature of the difficulties which had arisen and the solutions which had been proposed on behalf of the Secretary of State. The memorandum presented by the Secretary of State says this:—

> "It does not appear to have been thoroughly considered that each Dominion owes responsibility to the rest of the Empire for ensuring that its domestic policy shall not unnecessarily create embarrassment in the administration of India.
>
> "It is difficult for statesmen who have seen Indians represented only by manual labourers and petty traders to realise the importance to the Empire as a whole of a country with some three hundred million inhabitants, possessing ancient civilisations of a very high order, which has furnished and furnishes some of the finest military material in the world to the Imperial forces, and which offers the fullest opportunities to financial and commercial enterprise. It is difficult to convey to those who do not know India the intense and natural resentment felt by veterans of the Indian Army, who have seen active service and won medals under the British flag, and who have been treated by their British officers with the consideration and courtesy to which their character entitles them, when (as has actually happened) they find themselves described as 'coolies,' and treated with contemptuous severity in parts of the British Empire. Matters like this are, of course, very largely beyond the power of any Government to control, but popular misunderstandings are such a fruitful source of mischief that it seems worth while to put on record the grave fact that a radically false conception of the real position of India is undoubtedly rife in many parts of the Empire.
>
> "The immigration difficulty, however, has, on the whole, been met by a series of statutes which succeed in preventing Asiatic influx without the use of differential or insulting language. It is accepted that the Dominions shall not admit as permanent residents people whose mode of life is inconsistent with their own political and social ideals.
>
> "But the admission of temporary visitors, to which this objection does not apply, has not yet been satisfactorily settled. If the question were not so grave, it would be seen to be ludicrous that regulations framed with an eye to coolies should affect ruling princes who are in subordinate alliance with His Majesty, and have placed their troops at his disposal members of the Privy Council of the Empire or gentlemen who have the honour to be His Majesty's own Aides-de-Camp. It is, of course, true that no person of such distinguished position would, in fact, be turned back if he visited one of the Dominions. But these Indian gentlemen are known to entertain very strongly the feeling that while they can move freely in the best society of any European capital, they could not set foot in some of the Dominions without undergoing vexatious catechisms from petty officials. At the same time, the highest posts in the Imperial service in India are open to subjects of His Majesty from the Dominions.

"The efforts of the British Government to create and foster a sense of citizenship in India have, within the last few years, undoubtedly been hampered by the feeling of soreness caused by the general attitude of the Dominions towards the peoples of India. The loyalty of the great mass of Indians to the Throne is a very conspicuous fact, and it is noteworthy that this feeling is sincerely entertained by many Indian critics of the details of British administration. The recent constitutional changes have given the people of the country increased association with the Government, and have at the same time afforded Indians greater opportunities of bringing to the direct notice of Government their views on the wider question of the place of India in the Empire. The gravity of the friction between Indians and the Dominions lies in this, that on the Colonial question, and on that alone, are united the seditious agitators, and the absolutely loyal representatives of moderate Indian opinion."

This, Sir, was in 1911, three years before the war; and if the position was correctly described then, you will conceive with how much greater strength the same observations apply to the present position as between India and the Dominions. Of course, since 1911, so far as South Africa is concerned, many practical grievances which then existed have, I gratefully acknowledge, been removed, but there are still many others outstanding. Those are referred to in the memorandum which has been circulated to the Conference, and I trust my friends Mr. Burton and General Smuts, to whose statesmanship South Africa, including all its inhabitants, owes so much, will be able, on their return to their own country, in process of time to remove all, or at any rate some, of the grievances to which I refer. I recognise that it is a matter of time. I recognise their desire to remove those grievances, in so far as they are grievances, and I appreciate the difficulties of getting any legislation through their own Parliaments for that purpose; but at the same time I hope the matter will not be lost sight of, and that an early consideration will be given to matters which have not been the subject of agreement between us on this occasion.

But, Sir, so far as the outstanding difficulty of India is concerned, I am happy to think that the Resolution which I now propose before the Conference, if accepted, will get rid of that which has caused the greatest amount of trouble both in Canada and in India. There are now about 4,000 or 5,000—I think nearer 4,000 than 5,000—Indians in the Dominion of Canada, mostly in British Columbia, I think, in fact, all in British Columbia; and the great difficulty of their position—a difficulty which is appreciated in India—is that these men are not allowed to take their wives and children with them. Now the Resolution, in paragraph 3, removed this difficulty—that is to say, if it is accepted and given effect to—and I consider that that will cause the greatest satisfaction to my countrymen, and particularly to that great community of Sikhs who have furnished the largest number of soldiers during the war, and to whom these 4,000 men in Canada belong.

The principle of reciprocity, which was accepted by the Conference on the last occasion, is again referred to with approval and effect is to be given to it immediately as regards some of the most urgent matters concerned.

I have read from Lord Crewe's memorandum, Sir, the ludicrous position which now exists with regard to Indians of position visiting the Dominions That position will be altogether altered if the Conference accepts the second part of the Resolution which I propose—namely, that "British citizens domiciled in any British country, including India, should be admitted into any other British country for visits," and that the system of passports now in existence be continued, which would prevent any influx of undesirable labour population.

I think that, as the whole matter has been before the Conference so long it would not be right for me to take up the time of the Conference further. I venture to think that if this Resolution is accepted, it will solve many of the most acute difficulties which have arisen between the Dominions and India; and, speaking for India, I can assure you that it will cause the greatest satisfaction, and will help us to allay the agitation which, particularly at a

time like this, is a source of grave embarrassment. That is all I have to say, Sir.

MR. ROWELL: There are just one or two observations I would like to make, Mr. Chairman. May I say how sincerely Sir Robert Borden regrets that he could not be here this morning, when this question was coming up before the Conference for consideration. He has personally taken a very keen interest in the question, and I am sure he will appreciate the very kind references which the representatives of India have made to his attitude in endeavouring to find a solution of the difficulties which have existed for many years between India and the Dominions in connection with this very important problem.

The Resolution as submitted is accepted by Canada. We have had several Conferences in reference to the various matters raised, and the terms of the Resolution represent an understanding arrived at by India and the Dominions in connection with the important matters dealt with in the Resolution. We look upon it as a matter of importance that the principle implied in the first paragraph of the Resolution should be frankly recognized by all the communities within the British Empire. We recognize that there are distinctions in racial characteristics, and in other matters, which make it necessary that, while we fully recognize the principle of reciprocity, each should exercise full control over its own population. The other paragraphs of the Resolution give effect to the proposals which have been discussed before the Committee, and give effect in such a way as I am sure we all hope will meet the general approval of the citizens of the Dominions and of India, as well as of the other portions of the Empire. We are glad to be able to remove the grounds of objection which India has felt, particularly with reference to the liberty of the Indians resident in Canada to bring their wives and minor children to Canada; but it was felt that this matter could not be dealt with except as part of the whole problem and it is in connection with the solution of the whole problem that this forms an important part.

I think the number of Sikhs in Canada is not quite so large as Sir Satyendra has mentioned While there was this number at one time, I think a number have returned to India, and the number is not now as large. I am sure we all appreciate the splendid qualities which the Sikhs have shown in this war, and the magnificent contribution which that portion of India particularly has given to the fighting forces of the Empire, and I am sure it would have been a matter of gratification to us all if Sir Robert Borden could have been here when this important matter was being dealt with by the Conference. I am sure the effect of the passing of this Resolution will be to draw together the Dominions and India into closer bonds of sympathy, and to help to cement the bonds that bind our whole Empire together as a unit for great national purposes—for those great, humane and Imperial purposes for which our Empire exists.

CHAIRMAN: Mr. Cook, do you desire to say anything on this?

MR. COOK: No, I think not, Sir.

MR. MASSEY: I am very glad that this solution of the difficulty is arrived at. So far as New Zealand is concerned, there is no serious difficulty. We have very, very few Indians in New Zealand, and so far as I know the people of India have never shown any tendency to emigrate to New Zealand. I simply state the fact—I am not able to explain the reason. The objections, I understand, have come mostly from Canada and South Africa and I am very glad indeed from what has been said to learn that those objections have been removed. Of course, we shall have the administration of the law in so far as it doe apply to New Zealand, but I do not anticipate any difficulty there, and I think what has been done to-day not only removes the present difficulties, such as they are, but will prevent serious difficulty occurring in the future. I value the Resolution on that account really more than on any other. Though New Zealand, as I have said, is not seriously interested in this matter—I have no doubt if Indians had come to New Zealand, and in considerable numbers, objections would have been raised, and it would have been the duty of the Government to take the matter in hand. That, however, has not taken place.

I should like to learn from Sir Satyendra Sinha whether this will affect Fiji in any way. Fiji is a neighbour of ours, and most of our sugar is produced there. It is not refined there, but is sent to Australia for refining purposes. I understand a very large number—I am not going into details, but I believe about 60,000 Indians are employed in Fiji at the present time in the production of sugar. I simply ask the question because the point is likely to be raised as to whether it will affect them.

SIR S. P. SINHA: In no way.

MR. MASSEY: I am very glad to hear it. I hope as far as Fiji labour is concerned that even in Fiji some satisfactory solution of the difficulty will be arrived at in connection with that dependency of the Empire. I know there is a little friction—not serious, but a little—but as far as I can understand the position—I do not profess to know the whole details—the difficulties are not insurmountable.

SIR S. P. SINHA: The difficulties are of a different nature. I hope they have been practically solved.

MR. MASSEY: That is all I wish to say, Sir.

MR. BURTON: The matters which were raised by Sir Satyendra Sinha and the Maharajah in connection with this question present, I suppose, some of the most difficult and delicate problems which we have had to deal with, and which it is our duty as statesmen to attempt to solve satisfactorily if the British Empire is to remain a healthy organization. I am sure we all feel, as far as we are concerned—I have told Sir Satyendra myself that my own attitude has been, and I am sure it is the attitude of my colleagues—sympathetic towards the Indian position generally. There are, of course, difficulties, and it would be idle to disguise the fact that many of these difficulties are of substantial importance, which have to be faced in dealing with this matter. But I do not despair of satisfactory solutions being arrived at.

Sir Satyendra Sinha has been good enough to refer to the attitude adopted by Canada and ourselves in discussing this matter in Committee, and I think it is only right from our point of view to add that the possibility of our arriving at a satisfactory solution on this occasion has been due very largely indeed to the reasonable and moderate attitude which the Indian representatives themselves have adopted. But for that, of course, the difficulties would have been ever so much greater. As far as we are concerned, it is only fair to say—and it is the truth—that we have found that the Indians in our midst in South Africa, who form in some parts a very substantial portion of the population, are good, law-abiding, quiet citizens, and it is our duty to see, as he himself expressed it, that they are treated as human-beings, with feelings like our own, and in a proper manner.

As to the details I need not go into all of them. Paragraph No. 3 embodies, as a matter of fact, the present law of the Union of South Africa. That is our position there, so that our agreement as to that is no concession. I pointed out to Sir Satyendra when we were in Committee that in some of these points which he brought up as affecting South Africa I thought in all probability, if he were in a position to investigate some of them himself, he would find that perhaps the complaints had been somewhat exaggerated. I cannot help feeling that that is the case, but I will not go into these matters now. As far as we are concerned in South Africa, we are in agreement with this Resolution, and also with the proposal referring the Memorandum to the consideration of our Government, and we will give it the most sympathetic consideration that we can, certainly.

MR. LLOYD: This is not a matter which directly affects Newfoundland, but I should like to express my satisfaction that some solution has been found, and also to express the feelings which have already been given utterance to by South Africa with regard to the reasonable and moderate attitude of India.

SIR JOSEPH WARD: Mr. Long, this is a development in connection with the Empire that I regard as one of the very greatest importance. At the last Conference we made a move in the direction of meeting the wishes of India and this Resolution now, embodying the results arrived at by the Committee which has been inquiring into this matter, carries the matter, I think rightly

so, a good deal further. And I think it is a move in the right direction. The underlying recognition of the right of the overseas communities to control their own populations within there own territories is one as to which no recommendation from this Conference, if it were made in the opposite direction, could have the least effect within any portion of the British Empire, and in that respect it is laying down a foundation upon which I regard the whole of these proposals as being based.

I think the important factor in connection with it is this: All our countries, at all events New Zealand, have in the past, from causes or reasons one need not specially refer to, viewed with some alarm the possibility, as they thought, of large numbers of Indians coming to them and becoming factors in making calls that would disturb, interfere with, or change the course of employment for instance, and, I think, that that first proposal is one that would be met by every reasonable person in our country with strongest approval.

I want to take the opportunity of saying that sub-clause (*c*) of the second paragraph of this draft Resolution—"Such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement"—completely meets the position that a good many people have had difficulties about, and I assume the Indian representatives are just as familiar with them as we are.

Upon the question of the introduction—although I have nothing to do with it as a representative here—of the wives of these men who have been admitted into Canada, that is, in my opinion, not only a wise thing to do, but on the highest grounds possible, and moral grounds among other things, it seems to be a legitimate corollary to what the Canadian Dominion have done with regard to the 4,000 or 5,000 men who are there.

And I want to say with regard to the Memorandum which has been placed before us by the Indian representative on those several matters, that as far as I am concerned I have read the memorandum very carefully this morning, and I shall be glad, at the proper time, to give the matters referred to the fullest consideration in our country.

MR. MONTAGU: Mr. Long, may I just detain the Conference one minute to express, on behalf of the Government of India and my colleagues, our gratitude for the way in which this Resolution has been received at this meeting of the Conference. Sir Joseph Ward has rightly said that this Resolution takes the question a good deal further. I emphasize that by way of caution, and I hope I shall not be charged with ingratitude when I say it would not be fair to the Conference to regard this Resolution as a solution of all outstanding questions. Many of them, can only be cured by time. Many of them, as Mr. Burton has said, require careful study. But I feel sure that the spirit in which the Resolution has been met, and the whole attitude which the representatives of the various Dominions have taken towards it, will prove to India that as matters progress, and as time advances, there is every prospect that Indians throughout the Empire will be treated not only as human-beings, but will have all the rights and privileges of British citizens

MR. COOK: Mr. Long, may I just say one word, lest my silence should be misunderstood. As my friends know, I attended the Committee meeting yesterday, and concurred in these proposals here, and the reason I do not occupy the time of the Conference is because there is nothing specifically relating to Australia in them. That is to say, many of the things referred to in this Memorandum are concessions which have already been agreed to in Australia very many years ago, even with regard to the bringing of the wives and minor children. I do not think there is any trouble in Australia about that. Whatever the technical difficulties may be, I do not think there is trouble occurring along those lines. At any rate, I am one of those who believe that when we admit a man to our shores we should admit his wife also and his family and if we are not prepared to admit his wife and family, we have no right to admit him. It seems to me that is among the elementary things. I concur entirely with the proposal in that respect, but that being the only outstanding feature of the proposal which can in the remotest degree

affect Australia, I will not take up time in discussing the matter but, agree cordially with what has been suggested and what has been done. I think we owe a great debt of gratitude to India for the attitude she has taken since this war began. That is the feeling in Australia through and through—one of the most profound and cordial appreciation of the attitude of India in regard to this war.

MR. MASSEY: It is the feeling all over the Empire.

CHAIRMAN: Perhaps I may be allowed to say a word in putting the Resolution. It will only be a very brief one. Last year the Conference was specially marked by the addition to our councils of the representatives of India, and I think we all feel that that made the Conference more complete and more real than it ever claimed to be before. This year sees another steady step forward, and I am bound to say that I think, having followed these proceedings very closely—I had the privilege to be present at the meeting which the Prime Minister of Canada was good enough to summon last year, when Sir Satyendra put the general case before us, and I think you will agree that that was a very useful meeting and started us in the direction which has been consistently followed since.—I think this steady advance is due, as has been said, not only to the wise, moderate, and extremely able line taken by Sir Satyendra and his colleagues—last year it was Sir James Meston and the Maharaja of Bikanir who represented India, while this year it is the Maharaja of Patiala—but also to the very statesmanlike view which has been taken of their responsibilities by those who speak on behalf of the great self-governing Dominions of the Empire. And certainly I rejoice more than I can say to see this evidence of the steady progress of the Empire along these lines which have been always followed in the past, and which, I believe, have made the Empire what it is—the recognition of fundamental principles, and a steady refusal to deny to any citizen of the Empire the privileges of Empire simply because of the accident of birth or locality. I regard this as a very important decision. On behalf of the Conference, I may perhaps be allowed to offer my congratulations to those who represent India and the Dominions upon this very considerable step in the development of our Empire. May I put the Resolution?

MR. ROWELL: May I add one word? It is simply that I desire to associate Canada and myself with the remarks which Mr. Burton made with reference to the very reasonable and statesmanlike attitude of the representatives of India in dealing with this matter. The Resolution which embodies the understanding arrived at is, perhaps, the best evidence of our appreciation on the one hand, and of their recognition on the other.

CHAIRMAN: I ought to say that Sir Robert Borden sent me a communication yesterday, expressing a great desire that this should be taken when he was present and we did our best so to arrange matters; but I need not point out to the Conference that unless we are able to take the subjects as they are put down, it is almost impossible to get our business properly forward, or to complete it, within the time at our disposal.

MR. MASSEY: I hope we shall finish this week.

CHAIRMAN: That is what we are working for, of course. May I put this to the Conference?

(The Resolution was carried unanimously.)

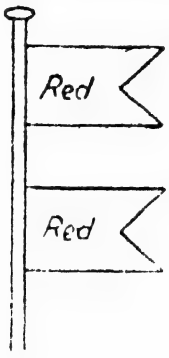
Regulations and Signals with respect to Submarines.

No. 119 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 542 of 1919), are republished :—

In order to avoid risk of collisions, etc., arising from the difficulty of recognising submarines operating in the vicinities of seas adjacent to Japan,

vessels navigating or operating in the localities where submarines might be met with are warned to take notice of the following signals :—

(*i*) During the operations of submarines two "B" flags of the International Code are displayed at the masthead or yardarm of the vessel accompanying the submarines, indicating that such submarines are operating within the radius of 5 sea miles. If necessary the direction with respect to the parent vessel will be indicated by signals in the International Code.



(*ii*) When vessels recognise any such parent ship exhibiting the above described signal it will be necessary to observe closely her movements and any further signals exhibited by that vessel, and moreover to keep a sharp look-out over the surface of the sea.

(*iii*) As submarines usually avoid the channels most used by navigation (except where this is impracticable), vessels should therefore, as far as is possible, endeavour not to proceed outside such usual channels.

REPORT ON DISTRESS IN THE DISTRICT OF BANKURA FOR THE WEEK ENDING 17th MAY 1919.

Rainfall was general and cultivation was in progress during the week. Thirty-two test works were open during the week, 5,437 workers having been employed on them. The increase in the number of workers was due to the opening of new works. More works are being opened. Petty private works are continuing. Gratuitous relief is being given in 56 Unions; the number of persons relieved by cash doles was 1,938, and 443 weavers were relieved by the Co-operative Industrial Union and the Weavers' Relief Committee, 2,066 persons by the grant of paddy husking advances and 298 better class poor. The total number of persons on gratuitous relief was 12,545. The decrease in the number of persons relieved by doles is due to fit persons being sent to works. Distress is spreading owing to high prices and the contraction of credit and private charity. The relief measures are adequate. The physical condition of workers and public health are satisfactory. Crime is normal. Fodder and water are adequate. Cloth is being distributed to the destitute. The price of common rice varies from 6 to 6¼ seers per rupee. Arrangements have been made for the importation of Burma rice.

ANNUAL REPORT

OF THE

ROYAL BOTANIC GARDEN AND THE GARDENS IN CALCUTTA AND OF THE LLOYD BOTANIC GARDEN, DARJEELING, FOR 1918-19.

ROYAL BOTANIC GARDEN.

1. **General.**—Weather conditions during the year were somewhat trying to the garden, heavy bursts of rain alternating with prolonged spells of hot dry weather. From October 1918 to the end of March 1919 very little rain fell, so that many plants suffered from the drought. The display of annuals in the flower garden, although rather late owing to the weather conditions, was above the average. The show of orchids, however, during March and April was the poorest for many years, as owing to conditions in Europe and tribal disturbances in the collecting areas in the hills bordering Assam and Burma, the garden stock could not be replenished.

Three new vistas were opened out—one from the bridge on the Jacquemont Path north-westwards to the Roxburgh Avenue looking across Prain Lake, another from Kyd's Monument across King Lake to the Great Banyan Tree and the third from that monument northwards along Janardan Lake to the Small Banyan Tree. These vistas help to correct the "closed in" effect of too dense masses of vegetation, while two of them open out pleasing glimpses of Banks' beautiful piece of sculpture. Over 1,000 feet of length of the Kurz Avenue in the north-west of the garden and about 500 feet of length of the Hooker and Banyan Avenues were taken up and re-made.

Over 200 young trees and shrubs, of which about a-third are species hitherto unrepresented in the garden, were planted out.

A fair number of economic species were also planted in the economic garden, but it is impossible to do justice to this section, which could quite well occupy almost the whole time of one officer under present conditions. Even in its elementary stage this section has begun to appeal to popular interest. Quite a number of thefts of the more edible and readily utilisable species has occurred.

2. **Plant and Seed Exchange.**—Over 36,000 young trees and shrubs were distributed to Government departments and institutions, municipalities, railways, etc. Over 500 plants were received.

Over 400 packages of seed, mostly trees and shrubs, the packages varying from 2 ounces to 120 lbs. in weight, were distributed over a wide range. A very large quantity went to the new Delhi and to Mesopotamia. Other places were such as Persia, Egypt, Nigeria, Hawaii, England, West Indies, United States, New Zealand, South Africa, France, Java.

Nearly 400 packets of seed were received, exclusive of 18 bags of *Phœnix rupicola* seed from Mr. R. S. Lister of Pashok Tea Estate in the Darjeeling district.

3. **Herbarium and Library.**—Work was carried out along the usual lines throughout the year, aid in herbarium work being given by Messrs. Debburman and Narayanswami, of the Botanical Survey Department. Over 6,000 specimens were added to the herbarium, the chief additions being a collection of over 3,000 sheets of Philippine specimens presented by the Bureau of Science. Of Indian contributions the most interesting was a collection of nearly 200 excellently prepared specimens collected by Mr. C. G. Rogers, I. F. S., Chief Conservator of Forests, Burma, in the Tavoy district of that province. This has been supplemented by a collection made by the

Superintendent of the garden and Mr. P. T. Russell early in 1919 in the same district, when exploring Northern Tavoy for sites for new cinchona plantations.

Distribution of specimens has been to a great extent still in abeyance but should be resumed next year.

About the usual additions were made to the library.

4. **Publications.**—The letter-press of Part II of Vol. XII of the Annals of the Royal Botanic Garden, Calcutta, issued from the press during the year. It is devoted to Signor Beccari's account of the Lepidocaryeæ palms, belonging to genera other than *Calamus* and *Dæmonorops*. Distribution of this part has been postponed until the plates, which have not yet reached India, can be issued along with the letter-press.

5. **Financial.**—The revenue was Rs. 2,308-8-8, against an estimate of Rs. 500, the excess over estimate being due to part of the eastern end of the garden foreshore being rented out for storage of timber. There was a saving of Rs. 6,978-2-9, mostly on salary and establishment, out of the total allotment of Rs. 1,05,576.

6. **Staff.**—During the year, as for several years past, the garden was understaffed. Mr. (now Captain) C. C. Calder was Curator of the herbarium until the 14th November 1918, when he left on military service as an officer of the Indian Army Reserve. Apart from the herbarium, the staff throughout the year was reduced to the Superintendent, the Curator of the garden, Mr. G. T. Lane, and one Overseer, Mr. N. Mitra. There was no Probationer-Gardener and the Second Overseer, Mr. M. Jones, was on military service. Babu Devendranath Basu was head clerk throughout the year. All executive officers and the clerical staff performed their duties to the satisfaction of the Superintendent.

CALCUTTA GARDENS.

Work in these gardens, which include the Eden Gardens, Dalhousie Square and Curzon Gardens, was mostly of a routine character. The staff was below normal throughout the year, there being no European Assistant Curator. As it was impossible to obtain hose, most of the lawns suffered badly from lack of efficient watering. During the Armistice Celebrations most of the annuals in the Curzon and Dalhousie Square gardens were destroyed by the feet of the rejoicing crowds, and both gardens had to be replanted. A few flowering trees have been added to all three gardens.

Mr. S. Basu officiated as Assistant Curator in charge and Babu K. C. Maity as Overseer throughout the year and both performed their duties conscientiously. There was a saving of Rs. 4,291-13-2, almost entirely on salaries and establishment, from the total allotment of Rs. 44,395. The revenue, mostly from fees for fishing in the Dalhousie Square tank, was Rs. 300.

LLOYD BOTANIC GARDEN, DARJEELING.

Under Mr. G. H. Cave's competent Curatorship, this garden was kept up to the standard of past years, despite labour being both scarce and expensive.

Over 170 species new to the garden were planted out during the year. The limit of space for development of the garden in the enrichment of species has now almost been reached ; nearly 5,000 plants, over 45,000 seedlings, about 470 bulbs and tubers and over 7,000 packets of seed were distributed.

Over 47,500 persons visited the garden during the year. There was a small saving of Rs. 213-12-10, almost entirely on travelling allowance, from the total allotment of Rs. 14,553.

A. T. GAGE, LIEUT.-COL., I.M.S.,

Superintendent.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 22nd May 1919.

Summary.—During the week weather was hot and rainfall was generally scanty. More rain is needed to facilitate the growth of standing crops and for agricultural operations generally. The average price of common rice for the Province has risen by about 1·9 per cent. as compared with that of the previous week. Distress continues in Bankura and in the Brahmanbaria subdivision of the Tippera district. The average number of persons engaged daily on test works in the Brahmanbaria subdivision was 966.

Draft amendment.

Delete items 13 and 15 and *read* item 14 as item 13.

Add as item 14.

14. (*1*) During the period of closure of the Tolly's Nala at Samookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *vid* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(2) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(3) (*a*) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(*b*) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment

(*c*) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(4) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

FIELD OPERATIONS.

No. 2019.—The following despatch from Lieutenant-General Sir W. R. Marshall, K.C.B., K.C.S.I., on the operations of the Mesopotamian Expeditionary Force from the 1st October to the 31st December 1918, is published for general information.

A. H. BINGLEY, *Major-General,*
Secretary to the Govt. of India.

No. O.-1924-1, dated 1st February 1919.

From—Lieutenant-General Sir W. R. Marshall, K.C.B., K.C.S.I.,
Commander-in-Chief, Mesopotamian Expeditionary Force,
To—The Chief of the General Staff, Army Headquarters, India.

1. I have the honour to submit the following report on the operations of the Mesopotamian Expeditionary Force from 1st October 1918, the date of my last despatch, to 31st December 1918.

2. The overwhelming victories achieved by General Allenby in Palestine and Syria had naturally re-acted, greatly to our advantage, on the situation in N.-W. Persia. The Turkish threat against Kasvin (and therefore Teheran) was now no longer to be feared. In fact, even before the fall of Damascus, my information led me to believe that the Turks were hurriedly withdrawing troops from the Caucasus.

This, then, seemed the moment to take the offensive against the Turkish 6th Army, covering the approaches to Mosul, and it was with great pleasure that on the 7th October I received orders to carry out this movement.

3. The forces opposed to me were the 2nd and 14th Divisions of the 6th Turkish Army, and, possibly, the 5th Division, which was known to be on its way to the Mosul Vilayet from the direction of Urmia.

The bulk of the Turkish forces (calculated at about 9,000 rifles and 59 guns) was located on the Tigris, and holding a position of great natural strength astride the Fatha Gorge. This position had been in their occupation nearly 18 months, and had been thoroughly prepared for a protracted defence. The enemy's right flank from the Fatha Gorge to Shergat was not only artificially defended, but also naturally protected by two formidable ranges of hills known as the Jebel Makhul and the Jebel Khanuka, which could not be turned owing to lack of water in the desert.

On the left bank of the Tigris the position extended for some five miles along the crest of the Jebel Hamrin. Opposite the junction of the Lesser Zab with the Tigris, the Turks had constructed a second strong position astride to Jebel Khanuka and Jebel Makhul, as well as trenches to defend the line of the Lesser Zab, a bridge at El Humr giving them free movement between both banks of the Tigris.

4. The exigencies of the Persian line of communication, which extended to Enzeli on the Caspian Sea, and the collection of the harvest, had denuded me of a large amount of transport, but for which fact I should have hesitated to adopt a line of advance against positions such as I have roughly outlined, and would have preferred that the main operation should take place *via*

Kirkuk, and so make the Turks fight on ground of my own choosing. The distances from railhead by this route, however, were, in view of the available transport, an absolute deterrent, and there was nothing for it but a direct attack up the Tigris.

A good deal of preliminary movement of troops not required for the operations was necessary in order to get them on to the railways, and so enable them to give up 2nd line transport to form supply columns. The 56th Infantry Brigade was also sent up from the Euphrates to construct the railway line in advance of Tekrit, the latter place being then railhead, and 35 miles distant from the Turkish position at Fatha.

5. I entrusted the conduct of the main operations on the Tigris to Lieut.-General Sir A. S. Cobbe, V.C., K.C.B., C.S.I., D.S O., Commanding I Corps, and placed at his disposal (in addition to the 17th and 18th Divisions), the 7th and 11th Cavalry Brigades.

To protect the right flank of General Cobbe's advance a small column from the III Corps, under Command of Brig.-General A. C. Lewin, C.B., C.M.G., D.S.O., A.D.C., was detailed to advance on the line Tauk-Kirkuk-Altun Keupri, and to prevent the Turkish forces in that area from moving down the Lesser Zab.

6. It was impossible, as previously stated, for troops, other than light armoured motor cars, to operate against the Turkish right flank, and a direct attack on the main Fatha position would certainly have proved very costly. The plan adopted, therefore, was to turn the left of the Turkish position on the Tigris and force a crossing of the Lesser Zab, thus getting their right bank positions enfilade, and so enabling our troops on that bank to attack with greater chances of success. Having cleared the left bank of the enemy, it was then intended to cut his line of retreat on Mosul by means of cavalry working up the left bank and by light armoured motor cars moving round the enemy's right.

There could, unfortunately, be little element of surprise in our attack, because the Turks had been confidently expecting it for some time, in addition to which dumps of ammunition and supplies had to be formed at Jift Post, 20 miles in advance of Tekrit. Bold and repeated reconnaissances against the enemy's right flank were, however, carried out to try to induce him to put his strength on that side.

7. By drawing on all possible sources for transport both cavalry brigades and half the infantry brigades were made sufficiently mobile to carry out the intended operations. By October 18th the forward dumps at Jift Post had been completed, and two crossings of the Jebel Hamrin were also occupied owing to the necessity for developing the wells at these points, in view of future requirements. On the same date Brigadier-General Lewin moved from Tuz Khurmatli and occupied Tauk, and the important bridge four miles north-east of that place, capturing 25 prisoners and some animals.

The dispositions for the attack on the Fatha position were as follows :—

On the right bank Tigris, the 17th Division and attached troops, under Major-General G. A. J. Leslie, C.B., C.M.G., and on the left bank the 18th Division and attached troops, as well as 7th Cavalry Brigade (Brig.-General C. E. G. Norton, A.D.C.), under the command of Major-General H. D. Fanshawe. C.B. Special missions were also assigned to the light armoured motor batteries on the right bank and to the 11th Cavalry Brigade (Brigadier-General R. A. Cassels, C.B., D.S.O.) on the left bank. The R. A. F. were retained to work under the direct orders of the I Corps.

9 Both the divisions detailed for these operations were new formations, and, with the exception of a few units, had had no previous war experience. Each infantry brigade had recently been reduced by one Indian battalion withdrawn for service in another theatre of war, and from each of the remaining Indian battalions of these brigades one company had been taken away for the purpose of forming nuclei for newly-raised battalions in India. In addition many officers and non-commissioned officers had been sent away to assist these new formations.

A serious outbreak of influenza which occurred at this time also greatly reduced the fighting strength of all units. Special influenza camps had to be improvised in order to free medical units in the field for the reception of the wounded. It is a curious fact that as soon as the operations started there were practically no further cases of influenza.

10. By the morning of the 23rd October General Cobbe had completed all his preliminary moves and was in touch with the enemy both on the right and the left banks of the Tigris, and Brigadier-General Lewin had reached Tuz Khurmatli, 12 miles south-east of Kirkuk. That afternoon a column under Brigadier-General M. R. W. Nightingale, C.M.G., D.S.O., moved along the crest of the Jebel Hamrin against the Turkish left, whilst the 7th Cavalry Brigade moved round the north of those hills. The vigorous action of these two columns during the night of October 23rd-24th caused the Turks to abandon the very strong Fatha position before daylight on 24th.

11. On the 24th October the 11th Cavalry Brigade (which had concentrated at Ain Nakhaila on the previous day) after a 45-mile march through a waterless country, reached the Lesser Zab, some 20 miles above its confluence with the Tigris, at about 3 P.M. The Turks were holding the right bank in some strength, but in spite of opposition a crossing was forced over a deep ford in the neighbourhood of Uthmaniya with surprisingly few casualties. On the same day the 17th and 18th Divisions followed up the retreating Turks, maintaining a continuous pressure, while the R. A. F. co-operated with low flying aeroplanes which bombed and machine-gunned the enemy columns. The artillery of the 7th Cavalry Brigade also found good targets from their forward positions on the left bank. The Light Armoured Motor Brigade, under command of Lieutenant-Colonel Sir T. R. L. Thompson, Bart, M.C., having been especially equipped to make it self-contained for some days, proceeded to El Hadr (60 miles west of Shergat) in order to establish a base at that place for operations against the Turkish communications with Mosul.

The roads through the Fatha Gorge (on both banks) were found to be impraticable for vehicles, the Turks having blown the road into the river in several places, and a new road therefore had to be made by cutting into and blasting out the rocky hillsides. A pontoon bridge was also thrown across the Tigris at Fatha to facilitate transference of troops and supplies.

12. On the 25th, the 7th Cavalry Brigade and the leading (53rd) Infantry Brigade of the 18th Division forced a crossing over the Lesser Zab near its confluence with the Tigris, in face of considerable opposition and heavy shell fire. Meanwhile the 11th Cavalry Brigade, which was now engaged in ferrying its transport across the river near Uthmaniya, sent a force down the right bank of the Zab. These two movements caused the Turkish force on the left bank of the Tigris to retreat across their bridge at El Humr.

Lewin's column had during the day driven back superior Turkish forces and occupied Kirkuk.

13. The 17th Division, on the right bank, was keeping in close touch with the Turks, but was meeting with great difficulties, and its advance was necessarily slow. The few tracks existing over the deep ravines and precipitous slopes of the Jebel Makhul and Jebel Khanuka were mere goat paths and all transport had to be converted from wheeled to pack, one brigade having to be immobilised to provide sufficient pack transport for the troops operating. The difficulties of getting forward the field and heavy artillery in time to support the infantry were immense, while the heat and lack of water entailed great exertions from the troops.

The Division, however, worked steadily forward, assisted by artillery fire from the left bank, and late in the evening the leading troops (1st Battalion, Highland Light Infantry) made a gallant attack on the advanced trenches of the Turkish position covering Humr. The wire protecting these trenches was uncut, but the H. L. I. were not to be denied, and rushing the wire, captured the trenches, which they held throughout the night and following morning, despite considerable losses.

14. On the 26th the Division continued the attack on the Turkish position, which was, in addition to being well entrenched, one of great natural strength.

On the same day the 11th Cavalary Brigade (consisting of 7th Hussars, Guides Cavalry, 23rd Cavalry, and "W" Battery, R. H. A.) was despatched at an early hour from Uthmaniya (moving wide of the Tigris) to a reported ford opposite Hadraniya, some 14 miles upstream of Shergat. The ford, which was discovered at 3-30 P.M., proved just feasible, but it entailed crossing three channels of the river, one of which was nearly 5 feet deep with a strong current. The leading regiment having completed the crossing galloped to seize the Huwaish Gorge, about 5 miles downstream. This

important point was occupied without opposition, and by the morning of the 27th the bulk of the brigade had taken up a strong position, blocking the road to Mosul.

During the day the 7th Cavalry Brigade, by moving up the left bank of the Tigris towards Shergat, attracted the attention of the Turks, and thus masked the movement of the 11th Cavalry Brigade to Hadraniya. Whilst the cavalry was engaged in this operation the light armoured motor cars, moving from their base at El Hadr round the right rear of the enemy, cut the telegraph line to Mosul, thus isolating the Tigris force from the 6th Turkish Army Headquarters

15. During the night of October 26th-27th the 7th Cavalry Brigade, having run out of supplies, was brought back to the bridgehead at Fatha to fill up from the supply columns, and also to be available for use on either bank as the situation might demand.

On the 27th the 11th Cavalry Brigade, with its right flank protected by the light armoured motor cars, moved southward from Huwaish and launched an attack against the Turkish reserves, with the double object of assisting the 17th Division and concealing its own weakness. Meanwhile the 53rd Infantry Brigade, under Brigadier-General G. A. F. Sanders, with some artillery, marched from the Lesser Zab to join the 11th Cavalry Brigade. After a march of 33 miles the leading battalion reached Huwaish early in the afternoon of the 28th, and at once moved into position.

Throughout the day the 17th Division continued to advance over extremely difficult country, maintaining a continuous pressure on the Turks in order to prevent them from putting all their weight against the 11th Cavalry Brigade.

16. At 3 A.M., on October 28th, the 17th Division continued its march over a broken, arid, waterless country. Some eight hours later it closed with the Turkish rearguard which was holding a position three miles south of Shergat, and by 2 P.M. had driven it from its trenches. In this attack the assault by the 2nd Royal West Kent Regiment was skilfully arranged and gallantly carried through to the enemy's rearmost line of trenches, over 200 prisoners and 11 machine guns being captured.

Owing to the complete exhaustion of men and animals due to the heat, lack of water, and their previous exertions, the division was in no state to pursue. It was, indeed, necessary to get men and animals to the river for water. The Turks were thus able to concentrate during the night in a position amongst a maze of hills and deep ravines about 6 miles south of Huwaish. Here, however, they were discovered by our aeroplanes and heavily bombed as well as being shelled by our artillery from the left bank.

During the day Turkish reserves, some 2,500 strong with several batteries of artillery, made repeated attempts from the south to break through the 11th Cavalry Brigade, who barred the road to Mosul, but their attacks were unsuccessful, though the approach of enemy reinforcements from Mosul compelled the brigade to draw back its right flank to cover its rear.

During the afternoon infantry reinforcements from the 53rd Infantry Brigade began to arrive, and at 6-30 P.M. the 7th Cavalry Brigade (13th Hussars, 13th and 14th Lancers, and "V" Battery, R.H.A.), after a march of 17 hours from Fatha, in which they covered 43 miles, and crossed the difficult Hadraniya ford, were several men and horses where drowned, joined the 11th Cavalry Brigade on the right bank, and took over the protection of the right flank.

All troops on the right bank north of the enemy main body were now under the command of Brigadier-General Cassels, who conducted the operations which barred the retreat of the Turks to Mosul.

17. The position now was that a stubborn and not yet defeated enemy lay between Cassels' command and the 17th Division. The troops were urgently in need of rest; the 17th Division had been marching and fighting for the preceding four days under most arduous conditions. The 11th Cavalry Brigade had been continuously in action for 72 hours, and all had made very long marches. Nevertheless, it was imperative to call on the troops for renewed exertions in order to close in on the enemy and force his surrender. During the night (28th-29th) the Turks made repeated attempts to break through to the north, but were each time repulsed. During this fighting the Guides Cavalry and 1st Battalion, 7th Gurkha Rifles, distinguished themselves by their staunchness.

In spite of exhaustion, darkness and abominable roads, the troops of the 17th Division responded magnificently to the call made on them, and by 11 A.M., on the 29th, had driven back the Turkish rearguard on to the main body, which was holding a position north of Shergat. This position consisted of successive lines of hasty entrenchments commanding a series of ravines which had to be crossed by the attackers. Early in the afternoon the attack was launched against this position in the face of a galling fire. Whilst this was in progress the Turks delivered a heavy and vigorous counter-attack, which in one place reached the line held by the supporting battalions before it was stopped and dispersed with heavy loss by an immediate counter-attack. The 114th Mahrattas particularly distinguished themselves in this affair. Fighting continued throughout the night, the Turks fighting very stubbornly, and partially maintaining their positions.

18. Meanwhile a serious threat from a Turkish reinforcement (5th Division troops) moving down from the Mosul direction developed against Cassels' right flank. These troops established themselves with guns and machine guns on the high bluffs near Hadraniya, but were promptly dealt with by the 7th Cavalry Brigade. The 13th Hussars galloped across the open, dismounted under the bluffs, and, led by their colonel, carried the position by assault, many Turks being accounted for with the bayonet.

Mounted pursuit by the remainder of the 7th Cavalry Brigade cleared away further menace from the north, and resulted in the capture of 1,000 prisoners, with 2 guns and 12 machine guns.

The enemy's avenues of escape northwards were now effectively blocked, thanks to the skilful and resolute handling of his detachment by General Cassels, and the firm determination of his troops, who repulsed every attempt by the enemy to break through.

19. Gripped as in a vice, with his men packed in ravines, which were raked by our guns from across the Tigris, Ismail Hakki, the Turkish Commander, found himself in a hopeless position. All attempts to break through had failed, communication with the Turkish Commander-in-Chief at Mosul had been rendered impossible, and no relief was in sight. At dawn on October 30th, just as our troops were about to renew the attack, white flags appeared all along the Turkish lines, and later on Ismail Hakki surrendered in person.

A close was thus brought to the last battle to be fought in this war by a Turkish Army. It had been characterised by a stubborn resistance, and was in accordance with what one might have expected from Ismail Hakki and his troops. This Turkish General was the same officer who, in the early spring of 1917, commanded the Turkish forces on the right bank of the Tigris, opposite Kut-el-Amara, and was one of the last to escape across the river when the remnant of his forces were captured in the Dahra bend.

20. Immediately after the surrender the 7th Cavalry Brigade and light armoured motor cars were ordered to push rapidly along the Mosul road and round up any Turkish troops in the vicinity of Kaiyara. This was effectively carried out. The 14th Lancers, charging with the lance, captured a convoy and some 500 additional prisoners, whose retreat had been cut off by the armoured cars, while the 13th Lancers captured a Turkish battalion 6 miles north of Kaiyara. At this place also a depot of supplies and a paddle steamer were captured, whilst the machinery established by the Germans at the oilfields was but slightly damaged.

21. Whilst the fighting as described had been in progress Lewin's column had fulfilled its rôle admirably, and had throughout contained and out-manœuvred a superior Turkish force, eventually driving it across the Lesser Zab at Altun Keupri (where the Turks blew up the bridge) in the direction of Erbil. Early on October 31st General Lewin occupied Altun Keupri.

22. The total captures during the operations amounted to—

11,322 prisoners (including 613 officers),
51 guns,
130 machine guns,
over 2,000 animals,
3 paddle steamers,

and large quantities of gun and rifle ammunition, bombs, a complete bridging train and war material of all kinds.

23. Immediately the news of the Turkish surrender on the Tigris was received I determined to exploit the victory to the full by pushing on immediately to Mosul, the chief town of the Vilayet of that name, and the headquarters of the 6th Turkish Army. With this object in view a column was formed consisting of the 7th and 11th Cavalry Brigades and the 54th Infantry Brigade, as well as artillery, the whole under the command of Major-General Fanshawe. On November 1st, when the news of the armistice was received, both Cavalry Brigades had reached Hamman Ali, 12 miles, south of Mosul, where they were met by a flag of truce sent by Ali Ihsan, commanding 6th Turkish Army, requesting them to return to Kaiyara; but, as I had reason to fear for the safety of the Christian inhabitants of Mosul, I ordered the cavalry to move to that place as a deterrent to disorder. The Turkish Commander, however, endeavoured to evade the real meaning of the armistice terms and energetic measures had to be taken to clear the Mosul Vilayet of the remnants of his troops. By 10th November we were in full possession, and the Turkish troops had been withdrawn to Nisibin.

24. The complete success of the operations reflects the greatest credit on Lieutenant-General Cobbe, who had entire charge of the main operation, and also on his staff and subordinate commanders. The difficulties of supply, not only of food and water, but also of ammunition, were very great, but were largely overcome by the energy and resource of the responsible staff.

The daring and brilliant leadership of the Cavalry Brigades under Brigadier-Generals Cassels and Norton contributed largely to the final result, whilst the able tactical handling of the detached column under Brigadier-General Lewin efficiently safeguarded the exposed flank of our main forces.

The long protracted campaign in Mesopotamia was thus brought to a highly successful conclusion, and my warmest thanks and admiration are due to the troops who achieved this crowning victory. Their courage, endurance, and fortitude under conditions of considerable privation and exhaustion are worthy of the highest praise; they were continuously called upon for redoubled efforts, and they responded nobly and unflinchingly.

25. I now turn to events in North-West Persia, where, as I described in my last despatch, the Turks had during the summer given me some anxiety by reason of my long and vulnerable line of communications to the Caspian Sea.

There were three possible lines on which operations might take place, viz., Mianeh, Bijar and Senna. On the Mianeh line the Turks were in possession of a strong position on the Kuflon Kuh effectively covering Mianeh from the south. On October 1st our troops were not in actual contact with the enemy, but frequent reconnaissances were undertaken by aeroplanes as well as by light armoured motor cars. From the information received from these and other sources it was clear that the Turks were being withdrawn, but owing to difficulties of maintenance, and to the ravages of influenza, it was decided not to follow them up, but to attack them by aeroplanes only, the rest of the troops on this line being concentrated at Zinjan.

On the Bijar line a strong patrol of British cavalry sent out from Bijar on October 2nd caused the Turkish detachment that had been in contact with them to withdraw. A small mixed force moved north on October 5th, the enemy retiring without offering fight, but a severe epidemic of influenza brought operations to an abrupt close, the troops returning to Bijar on October 9th.

On the Senna line a reconnaissance in force was carried out for 20 miles along the Sakiz road on October 2nd and 3rd, but this failed to establish contact with the Turks who were later reported to have withdrawn to Sakiz.

26. Immediately after the conclusion of the armistice with Turkey on October 31st, I received instructions to re-occupy Baku (in co-operation with our Allies), and all available troops of the 39th (British) Infantry Brigade were ordered to concentrate for this purpose at Enzeli. They were joined there on November 9th by Russian and Armenian troops under General Bicharakhov, who had been driven by the Turks out of Petrovsk, where the Turkish commander, despite representations by both British and French staff officers, refused to recognise the armistice. At this time Nuri was commanding the Turkish forces in the Caucasus. An envoy had been despatched to him on November 4th asking for a definite date to be fixed

by the Turks for the evacuation of Baku, but a procrastinating reply was received, and in consequence the envoy was sent back again to him accompanied by a staff officer to inform him that Baku would be occupied by a British and Russian force on November 17th, by which date Turkish troops, with the exception of a small detachment to preserve order, were to be clear of the town.

At dawn on November 16th a fleet of seventeen transports left Enzeli escorted by three vessels of the Caspian Fleet, which had been armed by the Royal Navy under supervision of Commodore D. T. Norris and Captain B. G. Washington, R. N.

During the morning of November 17th they were joined off Nargin Island by General Bicharakhov's Russian force, escorted by the Russian Caspian Fleet. The expedition was accompanied by French and American representatives, and the vessel conveying Major-General W. M. Thomson, C B., M.C., commanding the British troops entered Baku at the head of the combined fleets flying the flags of Great Britain, France, Russia and America. Our troops landed without opposition, and Baku was taken over from the Turks, who completed their evacuation of the town during the afternoon.

Many and varied were the questions which had to be dealt with in Baku, amongst which I may instance shipping control, feeding the inhabitants numbering a quarter of a million, finance, including the reopening of the Russian State Bank, settlement of labour disputes on the oilfields, strikes in the town, payment of overdue wages, reopening the Trans-Caucasus system of railways, getting into working order the oil pipe-line from Baku to Batoum, etc., etc. All these questions were most ably and firmly dealt with by General Thomson, who was quite evidently the right man in the right place.

Our efforts had to contend with the mutual jealousy and intolerance of various factions, and it is not too much to say that all arrangements for reorganisation were hampered by entirely unnecessary delays in withdrawal on the part of the Turks. After retiring from Petrovsk they make further delays at Elizobetopol and other towns, much of which being due to the excessive amount of baggage (mostly loot) which they attempted to remove, together with a reserve of one month's supplies requisitioned by them from the country. A mission had also to be sent to Tiflis to put an end to the hostilities which had commenced between the Georgians and Armenians.

28. Besides the troops in Baku, a small force was also despatched to Krasnovodsk in order to secure that place as a naval base for the shipping working under our orders, and to deny it to the Bolsheviks, who were holding Astrakhan in strength. Portions of this Krasnovodsk detachment were taken to assist in the fighting near Askabad and Merv.

Despite armed Bolshevik ships based on Astrakhan, our armed vessels have permitted of the reopening of the Caspian trade and fisheries except in the far north.

During the month of December the result of our actions by land and sea along the Caspian littoral was one of steady progress towards pacification as the confidence of the people was gradually gained, and the repatriation of the Armenian and Russian refugees, who had been driven out of the Caucasus by the Turks, has nearly been completed.

29. Towards the end of the year troops from our Salonika force landed at Batoum; Baku and Krasnavodsk passed out of my command on the last day of December, 1918, as it was considered easier to maintain troops at these places by the Batoum-Baku line, which was now working with some regularity.

30. Up to the end of 1918 the maintenance of the troops in North-West Persia and in Baku depended on the Persian lines of communication, *viâ* Hamadan and Enzeli. From railhead to Hamadan, a matter of 340 miles, a lightly metalled road has now been made which admits of the passage of light motors 48 hours after rain. From Hamadan to Enzeli, nearly 300 miles, an old metalled road exists, but has to be kept in constant repair. The work entailed in constructing the road from railhead to Hamadan and in keeping open the road from Hamadan to Enzeli reflects the greatest credit on the organising staff as well as on the engineers and pioneers responsible for the work.

31. I now turn to my left flank on the Upper Euphrates where, during October, my information was to the effect that the small force which the

Turks had kept in that valley since their defeat at Khan Baghdadi at the end of March was gradually being withdrawn. Haditha was accordingly occupied on October 30th and Ana on November 1st. Abu Kemal, 60 miles upstream of Ana, was visited in the middle of November and eventually occupied on December 27th. The attitude of the Arabs was everywhere most friendly.

32. Nothing has occurred to mar the peaceful conditions which exist in the region of Ahwaz and the oilfields.

33. On the Tigris line of communication the daily consignment from Basra up river averages 2,600 tons, of which 600 tons are fuel; in addition moves are carried out of considerable numbers of troops. The maintenance of the fleet of some 2,000 steamers, launches, and barges of the Inland Water Transport, R.E., has necessitated the erection of large dockyards and repair yards. Moreover, special construction yards have been opened to put together the steamers and barges which arrived in parts from England.

The port of Basra, from very small beginnings, can now be ranked as thoroughly up-to-date, 6,000 tons a day can be unloaded, and 12 ocean-going vessels can be berthed at permanent berths, 8 of which are fitted with electric cranes. The port has been planned so as to be capable of further extension on the most modern commercial lines, and should prove a considerable asset to the future trade of the country.

34. The Refugee Camp of Armenians, Assyrians, Nestorians and Jelus, which I formed at Bakuba in September, now contains some 40,000 men, women and children in approximately equal proportions, These refugees have been accommodated in tents and have been carefully separated according to their various tribes and sects into areas and sections, for the welfare, cleanliness, and discipline of each of which selected British officers and men are made responsible. Each area is self-contained with its own piped water-supply, cooking and washing places, etc.

Three hospitals and special disinfecting plant have been attached to the camp, and I have received great assistance from the members of the American Persian Relief Commission, who have spared themselves no trouble in providing employment for the women and girls in particular. The men are employed on road making, and work about the camp, for which they receive payment. An orphanage, containing some 800 boys and girls, who have lost their parents during and subsequent to the exodus from Persia, has been instituted, and these children are well cared for, clothed and taught. In addition to the human element provision has had to be made for close on 6,000 ponies, mules, donkeys, cattle and camels, besides flocks of sheep and goats.

I formed some 3,000 of the able-bodied men into four battalions, provided them with arms and clothing, placed them under the command of British officers, and provided them with instructors with a view to aiding them towards repatriation. The armistice with Turkey has now removed the necessity for armed formations, and these men will be absorbed into their own tribes.

I hope the repatriation of all these refugees will take place early in the coming spring, and I have already set machinery in motion with this end in view

35. There have been many calls on this force to furnish units and personnel for other theatres. During December 1917 and January 1918, the 7th (Indian) Division was despatched to Palestine, and this was followed in April and May 1918, by the 3rd (Indian) Division and three seige batteries, while at the same time a fourth seige battery went to Salonika. Further, in May 1918, I was called upon to form 15 new Indian battalions by withdrawing 60 trained companies from battalions in the force, these being subsequently replaced by recruits. Of these 15 battalions some went to Palestine and the remainder to India, to release a similar number for service in other theatres of war. In September 1918, I despatched 12 seasoned Indian battalions to Salonika, and just prior to the operations which ended at the battle of Shergat two heavy batteries and some 3,500 British infantry drafts were sent to France.

In addition to the above, during the past 18 months there has been a constant drain on the force for trained British and Indian officers and other ranks, to the extent of between two and three thousand, to assist in the formation of new units in India and elsewhere.

36. Since the cessation of hostilities I have had under consideration a scheme for educational training in the force with a view to preparing men for civil life pending demobilization. This is now in operation, and will, I believe, stimulate the desire for study, and help men in their work when they return home. In the theoretical portion of the scheme I have received great assistance from the Y. M. C. A., while technical and practical instruction is being given by the various directorates.

37. The campaign in Mesopotamia has lasted just four years. From small beginnings, when Fao Fort was captured on November 6th, 1914, the ration strength of the force when Mosul was occupied had grown to some 420,000, including labour battalions.

The area of territory of the Turkish Empire which has been conquered and occupied amounts to 114,000 square miles. The sphere of operations has included Trans-Caucasia and Trans-Caspia, and detachments furnished by the force are being employed over territory extending from Deir ez Zor on the Euphrates, 330 miles N.-W. of Baghdad, to Merv in Trans-Caspia, some 1,450 miles N.-E. of Baghdad.

Actual captures since the beginning of the campaign amount to :—

45,500 prisoners and 250 guns, together with vast quantities of war material of all descriptions.

These results have been achieved in a country destitute of shade in summer and impassable owing to floods in wet weather, and are a lasting record of the gallantry and endurance of the officers and men, both British and Indian, who have fought uncomplainingly in spite of heat, thirst, rain, and discomfort for four years in Mesopotamia.

38. No general has ever, I venture to think, been more loyally served, and I take this opportunity of recording my most grateful thanks to all ranks and all services who have fought so gallantly, worked so hard, and whose devotion to duty has made the Mesopotamian Expeditionary Force an army in which all can be proud to have served.

39. A list of names of officers, ladies, non-commissioned officers and men who have been deemed to have earned special distinction is being forwarded to you on a separate list.

40. In addition to the foregoing, and in pursuance of the authority delegated to me as Commander-in-Chief, I have made the following immediate awards for gallantry and distinguished service in the field during the period covered by this despatch :—

Draft amendment.

Delete items 13 and 15 and *read* item 14 as item 13.

Add as item 14.

14. (*1*) During the period of closure of the Tolly's Nala at Samookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *vid* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(*2*) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(*3*) (*a*) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(*b*) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment

(*c*) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(4) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

[*Cf.* Act I of 1894, s. 23.]

6. (*1*) Any person against whom an order has been made absolute under section 3, or any person who is declared by an order made under section 5 to be entitled to compensation, may, within three months from the date of such order, prefer an appeal to the Commissioner of the Division against such order. [*Cf.* 1878, ss. 16, 17.]

(*2*) The appeal shall be heard by the Commissioner in the prescribed manner; but the Commissioner may, pending the disposal of the same, order that the operation of all or any of the directions made by the Deputy Commissioner in respect of the land to which the appeal relates shall be stayed.

7. (*1*) Subject to such order as may be passed by the Commissioner in any case in which an appeal has been preferred to him under section 6, the Deputy Commissioner may, at any time during the currency of an order made absolute under section 3, enter on and inspect the land to which the order relates.

(*2*) If, upon such inspection the Deputy Commissioner is satisfied that it is no longer necessary to enforce any direction contained in such order, he may, notwithstanding that the full period allotted under section 3, sub-section (*4*), for the currency of the order has not elapsed, cancel the said order.

Power to Deputy Commissioner to refer to Local Government in certain cases

8. (*1*) If, upon such inspection as may be made under section 7, the Deputy Commissioner is not satisfied that substantial progress has been made towards compliance with every direction contained in an order made absolute under section 3, he may

(*2*) Where the Deputy Commissioner extends, under clause (*a*) of sub-section (*1*), the period allotted for complying with any direction as aforesaid, the owner or occupier, as the case may be, shall comply therewith within the period so extended, and, in default of such compliance, shall be liable to double the maximum penalty which may be imposed under section 17.

[*Cf.* 1878, s 86]

(*2*) When the Local Government have placed any land under the control of the Deputy Commissioner as provided by clause (*b*) of sub-section (*1*), the Deputy Commissioner may take such measures in regard thereto as he may deem necessary for carrying out all or any of the directions contained in the order made absolute in respect of such land.

Compensation for huts and buildings on land placed under control

10. (*1*) When any land has been placed under the control of the Deputy Commissioner under clause (*b*) of sub-section (*1*) of section 9, no compensation shall be payable in respect thereof save only the actual value of such huts or other buildings (standing thereon at the time) as the Deputy Commissioner may require to be vacated.

(2) The Local Government, after considering such a reference and after such further inquiry (if any) as they may deem expedient, may in their discretion direct the Deputy Commissioner, subject to the provisions of sections 12 and 13, to—

(2) If such statement shows a balance to be due to the Deputy Commissioner, he shall by a notice in writing call upon the owner or occupier, or upon both of them, to pay the said balance to that officer within one month from the date of such notice.

(3) If the owner or occupier of any land, upon whom a notice has been served under sub-section (2), pays to the Deputy Commissioner within the period specified in that sub-section the full amount of the balance shown in such notice to be due to that officer, the Deputy Commissioner shall thereupon—

Provided that the land shall be restored to the owner or occupier in the manner provided by sub-section (*3*) as soon as the said costs have been realised by the Deputy Commissioner from the proceeds of the sale of such forest produce (if any) as may be available upon the land, or from the income derivable therefrom.

The Darjeeling Hill-sides and Rivers Conservation Bill, 1919.

STATEMENT OF OBJECTS AND REASONS.

THE evils caused by deforestation and careless cultivation on the hill-sides of the district of Darjeeling have engaged the attention of Government for some time past. In 1905 the Indian Tea Association called the attention of Government to the question, and suggested the appointment of a Commission to investigate the matter. Inquiries made by various officers showed that there were certain definite evils to be dealt with, and that in particular the rough cultivation of clearings without precautions and the deforestation of slopes too steep for any kind of cultivation and their exposure to unrestricted grazing were causing serious landslips likely to be detrimental to the drainage of the district and to its general welfare. There was also evidence that not only were the hill-sides eroded and the river banks destroyed in this manner, but also that the violent floods were causing considerable havoc in the plains. The necessity of dealing with the question thoroughly and effectively was, therefore, apparent.

A Committee was accordingly appointed in 1910 to examine certain typical areas, to investigate each case of specific damage, and to suggest possible remedies or palliatives. As a result of their inquiries the Committee found that serious damage was being caused by landslips, the gradual washing away of the soil of the hill-sides, and the scouring and widening of the beds of rivers and torrents. They recommended the adoption of drastic measures, involving the reafforestation of certain areas, the prohibition of grazing and certain forms of cultivation, and the reservation of a protective belt of land along the banks of all main streams. It was, however, represented by the Commissioner and the Deputy Commissioner that the general adoption of these measures would entail the acquisition of large areas of land, the cost of which would be prohibitive; and that such stringent interference with existing rights would cause ruin to many cultivators and hardship to nearly all, and was not really necessary. It is impossible, even if it were desirable, entirely to prevent landslips, though it is usually advisable when a landslip has occurred to prevent the process of recuperation being interfered with by premature grazing, cultivation, or cutting down of vegetation. There is also reason to believe that the more enlightened landholders and cultivators of the district are beginning to realize the necessity in their own interest of avoiding wasteful methods of cultivation on the hill-sides and along the banks of streams; and that it will be sufficient, instead of entirely extinguishing private rights in such areas, to take power to intervene when a man's action is detrimental to his neighbours or to the public interests. The matter was the subject of inquiry and elaborate discussion for a considerable period. The Bill as finally drafted is intended to induce every landholder and cultivator to become his own conservator as far as possible. When it is necessary, in order to prevent public loss or danger, to enforce certain action or abstention from certain action in a particular area, the owners or tenants in that area will in the first place be called upon to take the necessary measures; and it is only in the event of their failure to do so that Government will take the extreme course of assuming temporary control of the land in order to carry out upon it the measures required to secure the public safety.

Provision has been made enabling Government to exempt certain classes of cultivation, which are either beneficial or innocuous to the hill-sides, from the operation of an order applied to a particular locality. The classes of cultivation to be exempted may vary according to circumstances.

Provision has also been made to ensure that cultivation which, if conducted with due precautions, may be innocuous in a particular locality, shall be so conducted.

Power has been taken to compound offences by accepting compensation, and provision has been made for appeals against orders passed by the Deputy Commissioner under sections 3 and 5 of the proposed Act, and in respect of the matters referred to in section 13, and for compensation to owners and occupiers whose property will be affected, and for allowing them adequate time to carry out any action which may be required of them.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1918.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Jails.

DARJEELING, THE 6TH JUNE 1919.

RESOLUTION—No. 105P.J.D.

READ—

The Report on the Administration of the Jail Department in the Presidency of Bengal for the year 1918.

READ ALSO—

The Reports for the years 1917 and 1916 and the Resolutions of Government recorded thereon.

THE total number of prisoners admitted to the Bengal jails during the year was 83,207, or 1,509 less than in 1917, but the average daily population in 1918 was 16,761, or 832 more than in the previous year. There was

therefore overcrowding at times in nearly all jails, and there are no signs, so far, that the increase in criminality which occurred after the outbreak of the war is subsiding. If it persists, the problem of providing additional jail accommodation will have to be faced. Some relief will, however, be given by the jails which will be built at the headquarters of the new districts which are to be created in Midnapore and Mymensingh.

2. It is satisfactory to find that, in spite of overcrowding, the number of jail offences of all kinds was substantially less than in the previous year, the ratio of total punishments to daily population being 142 against 166 in 1917. The penalty of whipping was inflicted in 42 cases as compared with 51 in the previous year.

3. General health conditions were unfavourable, especially during the last six months of the year, when influenza was prevalent throughout the country. The daily average number of prisoners in hospital was 963 as compared with 825 in the previous year, and the death rate rose from 15·8 per mille in 1917 to 21·3 per mille. The latter figure is, however, only slightly above the quinquennial average, and is one per mille less than in 1916. It is a curious fact that the jails suffered much more from the earlier outbreak of influenza in July and August than from the outbreak at the end of the year which proved so fatal among the general population. During November and December, when Calcutta was suffering severely, the Presidency and Alipore jails were practically free from the disease. Altogether 3,426 cases of influenza occurred in the Bengal jails, and of these 53 proved fatal. There was a marked improvement in the health of the prisoners in the Barisal and Barasat jails, which have caused anxiety in previous years, but high death rates are reported from Rangpur, Khulna, Jalpaiguri and Bogra. Serious outbreaks of dysentery occurred in the Rangpur and Jessore jails, where the inexperience of the staff added to the difficulty of combating the disease. The Governor in Council notices with regret the neglect of the sanitary condition of the Khulna jail which led to an outbreak of cholera. The Superintendent responsible has been removed. The death rates in all the Central jails except Midnapore were below the provincial average, and Midnapore has shown improved results as compared with the previous year.

4. The popularity of the wheat scale dietary continues to increase. Three-fifths of the total number of prisoners have voluntarily adopted this scale, and the statistics furnished by the Inspector-General again show its satisfactory effects on their general health. The average cost of this diet is the same as that of the ordinary rice diet.

The special ward for tuberculosis cases at Suri has proved useful. The construction of a ward in the Comilla jail for the reception of similar cases from the jails in Eastern Bengal has recently been completed.

5. The Juvenile Jail at Alipore continues to do excellent work. Further improvements have been made in the school where reading, writing, arithmetic and freehand drawing are now taught by a competent staff, while the physical training has produced an excellent effect on the health and spirits of the boys. Moral and religious instruction is given daily; discipline is good and the number of petty offences and punishments is decreasing. After experiencing considerable difficulties, Sir Walter Buchanan has succeeded in forming an After-care Association in Calcutta, which has found work for several of the boys on their release. There is scope for much useful work in this direction, and His Excellency in Council trusts that philanthropic gentlemen will interest themselves in this sphere of social reform.

The manufacture of quinine tablets and treatments continues to be the most important industry in the jail. The value of the quinine sold by the jail during the year amounted to over Rs. 3½ lakhs, and the profit exceeded a lakh.

6. The outturn of jail manufactures was again satisfactory, though there was a fall in the net cash earnings, due to the larger stock of raw materials and manufactured goods remaining in hand at the close of the year, as compared with the previous year, and also to larger outstandings due to the jails. The Presidency jail increased its outturn of gunny cloth and was able to make a substantial profit, owing to the low price of raw jute at the beginning of the year. The Midnapore central jail had to meet exceptionally large demands for cotton uniforms and durries from the Police Department, while the blanket factory at the Dacca central jail was engaged all the year in manufacturing blankets for the army. The Rajshahi jail increased its output of castor oil, which yielded a considerable profit.

7. The jails in Bengal continued to help in war work. As in previous years, prisoners volunteered during 1918 for service as sweepers, dhobis and artisans in Mesopotamia, and 27 were conditionally released and made over to the military authorities. The jails supplied to the army large quantities of bandages, dusters and doosuty cloths, besides a number of other articles.

8. The conduct of the warder staff was on the whole satisfactory, and there was a considerable decrease, in the number of departmental punishments. Resignations, however, show a tendency to increase, and the rise in prices and the competition of private firms are adding to the difficulties of recruiting suitable men.

9. The Governor in Council has read with pleasure the tribute paid by Sir Walter Buchanan to the officers of the Department. Lieutenant-Colonel Thompson has been awarded the Order of an Officer of the British Empire in recognition of his services in connection with the war at the Presidency jail, while Mr. M. Leach has been made a member of the same Order for similar services at the Dacca jail.

To Sir Walter Buchanan, who has recently retired from the service, the special acknowledgments of Government are due, not only for the work of the year, but also for his successful and efficient management of the Department during his seventeen years' tenure of the post of Inspector-General of Prisons, Bengal. It is a matter for satisfaction that his long experience of Jail administration is not lost to the country but will be available to the forthcoming Jail Commission, of which he has been appointed a member.

ORDERED that a copy of this Resolution be forwarded to the Inspector-General of Prisons, Bengal, for information.

ORDERED also that a copy of this Resolution and a copy of the report be submitted to the Government of India in the Home Department.

ORDERED also that the Resolution be published in the *Calcutta Gazette*.

By Order of the Governor in Council,

J. H. KERR,

Chief Secy. to the Govt. of Bengal.

TRIENNIAL RESOLUTION ON THE WORKING OF THE CALCUTTA MUNICIPALITY DURING THE THREE YEARS ENDING 31ST MARCH 1918.

GOVERNMENT OF BENGAL.

MUNICIPAL DEPARTMENT.

Municipal.

DARJEELING, THE 4TH JUNE 1919.

RESOLUTION No. 281T.—M.

READ—

The reports on the municipal administration of Calcutta for the years 1915-16 1916-17 and 1917-18 together with the reviews of the reports recorded by the General Committee and the Corporation.

THIS resolution deals with the administration of the Corporation of Calcutta during the three years ending the 31st March 1918. In view of the economic strain caused by the war, it might have been expected that this period would have caused grave embarrassment to the Calcutta Corporation, with a deficient sinking fund invested in its own debentures, which could only be realized in any considerable amount at a heavy loss. The accretion of large revenue balances, on which the previous resolution commented, enabled the Corporation, however, to surmount financial difficulties. Loans amounting to over 95 lakhs were repaid during the period under review, and although the Corporation provided more than 60 lakhs for this purpose from its revenue funds, it possessed a closing balance at the end of 1917-18 of no less than 45 lakhs—a fact significant of its financial strength.

2. **Elections.**—The sixth general election of Ward Commissioners under the present Act was held on the 20th March 1918. There were 35,153 voters with 90,807 votes, as compared with 38,412 voters with 95.492 votes at the time of the previous election. The votes actually given at the election represented 53 per cent. of the voting power as compared with 57 per cent. in 1915. The decrease is ascribed to recent amendments in Schedules IV and V of the Calcutta Municipal Act which abolished voting by proxy and required firms, companies, etc., to apply in time (which many failed to do) for the insertion of the name of a representative in the election roll. The newly-constituted body of Ward Commissioners consists of 19 Hindus, 2 Englishmen, 2 Jews, 1 Anglo-Indian and 1 Muhammadan. A novel feature of the election was the interest shown by the European and Anglo-Indian rate-payers, of whom nine offered themselves for election as against two in 1912 and 1915. In the contested wards keener interest than ever was shown in the election, but the Chairman remarks that there are still no signs of elections being fought on principles as opposed to purely personal considerations.

3. **Accounts.**—The accounts department has been reorganized, the complex system of the Corporation accounts simplified and the accounts code revised. According to the statement of revenue funds, actual receipts rose from Rs. 1,14,44,080 in 1915-16 to Rs. 1,23,49,448 in 1917-18, or by nearly 7·9 per cent., while payments fell from Rs. 1,10,98,520 to Rs. 1,10,88,037, the triennium closing with an actual balance of Rs. 55,52,903. On the basis of the accounts of income and expenditure, the income in 1915-16 was Rs. 1,14.30,725 and the expenditure Rs. 1,10,64,871, while in 1917-18 they amounted to Rs. 1,23,18,132 and Rs. 1,12,20,812, respectively, the closing balance being Rs. 45,13,541.

Owing to financial exigencies, the Corporation was compelled to curtail expenditure on capital works and to husband its resources in order to meet its loan liabilities. A loan of 28 lakhs obtained in 1917 from the Bank of Bengal, however, eased the situation, and the Corporation has still its large

revenue balance intact. This balance consists largely of municipal securities which may not be immediately realizable except at a discount, but the Governor in Council trusts that, as soon as may be practicable, the Corporation will utilize its surplus for the execution of long-pending schemes and works of which the cost may legitimately be defrayed from revenue funds.

4. **Loans.**—Of the loan of 35¾ lakhs which the Government of India authorized the Corporation to raise in 1914-15 debentures to the face value of Rs. 13,94,300 were issued in 1915-16, but the raising of the balance was suspended under orders of Government. Loans, however, to the extent of Rs. 95,01,900 had to be redeemed, and as the accumulation in the sinking fund only amounted to Rs. 38,39,577 (mainly in debentures of other loans) the balance had to be borrowed by the Corporation for their redemption, and debentures to the extent of Rs. 20,32,700 were subscribed for by it at par owing to the unfavourable state of the money market. With the exception of the sum of Rs. 13,94,300 mentioned above, no loan was raised for capital works during the triennium.

The loan funds opened with a balance of Rs. 9,40,811 on the 1st April 1915. The total receipts during the three years (*e.g.*, on account of loan receipts, sale of surplus land, etc.) amounted to Rs 80,77,782 and the expenditure to Rs. 84,03,796. The balance left at the end of the triennium amounted to Rs. 6,14,797.

The net indebtedness of the Corporation on the 31st March 1918, excluding the accumulations in the sinking fund, was Rs. 4,42,82,919 as against Rs. 4,58,80,234 on the 31st March 1915. It is satisfactory to note that this represents a decrease of Rs. 15,97,315 in the debts of the Corporation compared with an increase of Rs. 20,89,102 in their liability during the preceding triennium.

5. **Sinking fund.**—The balance at the credit of the sinking fund on the 31st March 1918 was Rs. 607 in cash, and securities of the face value of Rs. 38,99,600. To make good the temporary depreciation in the value of these securities, the Corporation was required to pay a sum of Rs. 5,87,220 into the fund during the period under review. The liabilities for interest and sinking fund charges on account of the total outstanding debt of the Corporation on the 31st March 1918 amounted to Rs. 31,82,980.

6. **Assessment.**—The assessed annual valuation of the city continued to increase and stood at the end of the year 1917-18 at Rs. 4,80,98,516 as compared with Rs. 4,34,00,000 at the end of the year 1914-15. A large increase was obtained by the general revaluation of the Port Commissioners' property. The Corporation is of opinion that the assessment department is apt at a general revision to enhance assessments on principle, even if the facts may not justify increase. The Governor in Council is not in a position to test the accuracy of this view; the only criteria which the administration reports furnish, viz., the small percentage of appeals decided against the department and the high prices realized by the sale of surplus lands, though not conclusive, point in the other direction.

7. **Collections.**—The collection and license departments maintained their record of efficiency. Both in 1916-17 and 1917-18 the percentage of collections for the consolidated rate calculated on the net demand reached the record figure of 99·8, while the collections of the license department in 1917-18 were the highest on record. The increase of fees from trades and professions appears to point to the continued prosperity of the city during the war.

8. **Water-supply.**—The average quantity of water supplied to the city during the last year under review rose to 62½ milion gallons per day (36 filtered and 26½ unfiltered), with an average consumption of 39 gallons of filtered and 29½ gallons of unfiltered water per head per day. Judged by European standards and compared with the allowance which suffices in smaller Indian municipalities enjoying a pipe supply, this quantity would not appear to be insufficient, but the public complains of its inadequacy and

clamours for a continuous supply, while often oblivious to the necessity of measures for the prevention of waste. A committee has been considering the whole question of filtered water-supply, and its final recommendations will shortly be laid before the Corporation. The experiment of metering houses in certain areas where the consumption is very high has given good results. Complaints regarding the supply of unfiltered water appear to be well founded, and in view of the danger to the public health which must arise where the pressure for flushing purposes in an underground drainage system is insufficient, the Governor in Council is glad to learn that the adequacy of supply and of the pumping plant is now under examination.

9. **Drainage.**—The anxiety to which the silting of the Bidyadhari river had given rise, as threatening the efficiency of the whole drainage system of Calcutta, has been relieved for the present by the adoption of Mr. Addams-Williams' spill area scheme. Land has been acquired near the Salt Lakes to serve as a spill area for the river, and although full effect has not been given to the scheme, recent observations show that deterioration has been largely arrested. The project for the installation of pumping plant at Palmer's Bridge pumping station, which was designed to make the outfall works independent of the silting of the reservoir, has consequently been deferred for the present.

The extension of its underground drainage system into the suburbs is perhaps the most pressing task which now confronts the Corporation. The insanitary conditions which prevail in the outlying parts of the municipality call for early remedies, and in recognition of this fact, the Corporation is undertaking a combined drainage scheme for Wards XIX and XX, to form a part of the Park Street extension scheme of the Improvement Trust. The canal area drainage scheme has given good results, and the sewering of the roads west of Tolly's Nullah—a long-delayed reform which is now to be financed from revenue funds—together with the sewerage and drainage schemes for Ward XXI and the Tangra area, should also improve the public health.

10. **Roads and Lighting.**—The Corporation is to be congratulated on the success of its asphaltum pavement. The Governor in Council will watch with interest the extension of this pavement to the northern parts of the city, where its durability will be even more severely tested than in Chowringhee. The Corporation has made patient experiments to discover the most suitable pavement for heavy bullock cart and motor lorry traffic, and its decision to spend 5¼ lakhs on paving with stone setts, cement jointed, appears to be justified by experience.

The Governor in Council observes with pleasure the commendation of the Chairman on the administration of the lighting department. He agrees, however, with the statement of the Corporation in its review on the administration report of 1917-18, that oil-lamps are anachronistic in a modern city, and trusts that the installation of a better form of lighting in narrow lanes and passages will not be delayed. The replacement during three years of only 295 oil-lamps by gas lighting is *primâ facie* not a striking record of progress in this direction.

11. **Markets.**—The reorganization of establishment in the Sir Stuart Hogg Market has been a useful reform, while the rebuilding of a portion of the market which was destroyed by fire and the remodelling of other blocks proved a remunerative investment. The scheme, which is already in hand, for the expansion of the market towards Free School Street appears to be sound and judicious. The new College Street Market also promises to be a financial success. Most of the private markets of Calcutta, however, still lag far behind modern requirements of sanitation, the control of the Corporation over markets registered under Act VII of 1871 being at present quite inadequate.

12. **Improvement works.**—The Kalighat improvement scheme has made considerable progress, while the cattle stock-yard and central stores are new works of importance. Much has been done to improve the amenities of city life by setting up apparatus for children's games in public squares. The Corporation has taken in hand several minor street schemes with excellent results. Such schemes are of distinct benefit to public health, and the

Governor in Council desires to commend this form of activity to the Corporation, which can thus supplement the larger operations of the Calcutta Improvement Trust.

13. **Sanitary Improvements.**—The enforcement of private sanitary improvements during the triennium was to some extent suspended owing to the high price of materials. The Governor in Council trusts that, with improved conditions, the Corporation will resume an active policy in his direction. It is hardly necessary to remark that one of the most important duties of a health department is the inspection and abatement of nuisances or insanitary conditions, which are liable to prove detrimental to the health, comfort and convenience of citizens. The Mallanga Lane experiment, in which the Corporation has taken a small congested block of houses and aimed at utilizing its full sanitary powers in respect of each dwelling, is an interesting recognition of this fact.

14. **Conservancy.**—The Governor in Council is glad to observe that the Corporation definitely intends to remove as early as possible the refuse railway, which has long been a scandal and reproach to Calcutta. He recognizes that it has been impossible to substitute a motor traction system during the war, but the disrepair into which the permanent way and the locomotives have fallen, and the serious breakdown in the service on two recent occasions, make improvement imperative; and it is to be hoped that the Corporation will translate its intention into action without any avoidable delay.

15. **Hackney carriages.**—The number of carriages licensed by the Corporation increased from 3,060 in 1915 to 3,123 in 1918 in spite of a decrease in the number of 3rd class carriages. Under the Hackney Carriage Act recently passed into law, the control of the hackney carriage service is to be transferred to the Commissioner of Police, Calcutta.

16. **Public health.**—The health of the city showed a remarkable improvement during the triennium, the death-rate falling from 28·5 per mille in 1915 to 25·8 in 1917, while the birth-rate rose from 18·5 to 20·9 per mille. It is probable that the improvement in the birth-rate is due to some extent to the introduction of a more systematic house-to-house visitation and to increased activity on the part of the registration staff. The result of an investigation made in a typical ward in order to ascertain whether the low birth-rate was due to defective registration showed that 93 per cent. of the children under three years of age had been registered. The number escaping registration may, therefore, be assumed to be comparatively small.

It is a matter for congratulation that the rate of infantile mortality fell from 287·6 in 1915 to 239 per mille in 1917, but it must not be forgotten that the average rate in the United Kingdom is about half this figure. In Jograbagan with its densely populated slum areas, the rate was still 374 per mille in 1917. Excellent work has been done by the Lady Health Visitors and the midwives under them; and with the improvement of suburban drainage and the opening up of the more congested parts of the city by the Improvement Trust, a reduction of the present high rate may perhaps be expected. It also seems probable that "health visiting" or the periodical inspection of infants, combined with antenatal visiting and good midwifery, may lead (as it has led in England) not only to a reduction in immature births, but to the healthy up-bringing of children. The problem is, however, one of considerable complexity, and the Governor in Council trusts that its solution may be facilitated by the deliberations of the large representative committee which he has recently appointed to advise on the measures which should be taken to promote child welfare and to reduce infantile mortality.

The inequality of the death-rate among males and females continued, the ratio for the former being 19·8 per mille in 1917 and for the latter 32·1 per mille. The death-rate among females compares favourably with that for

the rest of Bengal, while the mortality among males is abnormally low. The explanation is to be found probably in the more fixed and stable character of the female population, whereas the males are largely a floating population with a large proportion of adults in the prime of life.

The marginal figures show the mortality from plague, small-pox and tuberculosis: the high mortality from small-pox in 1915 was due to a severe epidemic, which fortunately did not recur in the two subsequent years. Mortality from cholera and malaria, which averaged, respectively, 1,277 and 1,123 a year, showed a tendency to decline. Much of the cholera is imported, but there is reason to believe that the use of river water by Hindu widows and the more orthodox sections of the Hindu community is a frequent source of infection. The use of the unfiltered water-supply and recourse to doubtful sources, such as tanks, in the absence of a continuous supply of filtered water, may also have been responsible for a certain number of cases.

	Plague.	Small-pox.	Tuberculosis.
1915 ...	191	2,560	1,920
1916 ...	78	58	1,733
1917 ...	81	28	1,539

The law relating to food and drugs was amended by the Calcutta Municipal (Amendment) Act, 1917, which enables the Corporation to control places of manufacture and storage of ghee in the city as well as ghee in course of transit, and to make the keeping of adulterants penal. Over 400 maunds of adulterated ghee were seized during the year, and since the passing of the Act there appears to have been on the whole an improvement in the quality of ghee sold.

17. **Education.**—The total extent of aid given by the Corporation to educational institutions of all kinds increased from Rs. 77,030 in 1915-16 to Rs. 85,528 in 1917-18. Grants to primary and technical schools amounted in the last year to Rs. 66,057, including Rs. 26,253 representing exemption from the rates; rates amounting to Rs. 17,068 were also remitted in favour of certain colleges and schools conducted as charitable institutions. The Deaf and Dumb School was given an annual grant of Rs. 2,400 and grants to free libraries amounted to Rs. 5,375. Government has completed an educational survey of the city and the whole question of the improvement of its primary education is now under consideration.

18. **Personnel.**—The Chairmanship was held by Mr. C. F. Payne, I.C.S., except, during his absence on leave, from the 18th November 1916 to the 31st October 1917, when Mr. Goode officiated. Mr. Payne vacated his office in April 1919 for reasons of health and the Governor in Council desires to take this opportunity of recognizing the valuable services which he has rendered to the Corporation. He has been associated with the Corporation as Deputy Chairman and Chairman since the year 1904 and has administered its affairs with conspicuous success, a result due to his intimate knowledge of the details of municipal work, his sound judgment and administrative ability, no less than to his cordial relations with the Commissioners. Mr. S. K. Sawday continued to hold the appointment of Deputy Chairman and Mr. R. M. Chatterjee that of Vice-Chairman. The Governor in Council also desires to record his appreciation of the excellent work done by both these officers.

CERTAIN ASPECTS OF THE ORGANISATION AND POLICY OF THE AGRICULTURAL DEPARTMENT IN BENGAL.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Agriculture.

DARJEELING, THE 7TH JUNE 1919

RESOLUTION—No. 631T.-R.

As it is desirable to place the public in possession of the intentions and policy of the Agricultural Department in the agricultural development of the Bengal Presidency, the Governor in Council deems it advisable to explain in some detail certain aspects of the organisation of the Department, together with some suggestions derived from the experience of other countries as to how the people can best benefit from its activities.

2. **The necessity for private effort.**—The two main branches of the Department are the research and demonstration branches. It is, however, clear that the activities of the Department in respect of the demonstration of the results of the investigations of the research branch cannot be expected to reach more than a fringe of the agricultural population without the help of the public. On the one hand, the extent of such activities is conditioned by financial considerations; on the other hand, any development of the kind is of no avail if the people are not ready or cannot arrange to take advantage of it. Individually the agriculturist is ready; experience in this country has shown that if he can see with his own eyes the value of an improvement he will adopt it. But if all are to benefit, experience in other countries shows that the agriculturists must meet Government half-way in the matter. It has been found in those countries that, if small associations of agriculturists are formed to test and adjudicate on suggested improvements, to discuss their successes and failures with each other and to bring their needs to the notice of the Agricultural Department, then not only is the practical problem of how to reach the whole agricultural population solved, but there is hardly any limit to advancement in the direction of improved production, economic distribution, improvement of breed, and indeed in all mental and moral development. In the words of an American Professor of Political Economy, Dr. J. A. Ryan, "The transformation in the rural life of more than one European community through co-operation has amounted to little less than a revolution. Higher standards of agricultural products and production have been set up and maintained, better methods of farming have been inculcated and enforced, and the whole social, moral and civil life of the people has been raised to a higher level. From the view-point of material gain, the chief benefits of agricultural co-operation have been the elimination of unnecessary middlemen, and the economies of buying in large quantities, and selling in the best markets, and employing the most efficient implements."

An essential condition, however, for the success of such associations is that they should be conducted on the basis of self-help. It is desirable for Government to assist such associations by teaching and exercising close control; but interference with their management or the grant of pecuniary aid by Government impairs the fundamental principle of self-reliance.

3. **Formation of small Agricultural Associations in Bengal.**—What precise form private effort should take in Bengal, it is perhaps too early to

prophesy. But undoubtedly there is every reason to believe, from the experience gained in other countries, that the formation of small agricultural associations should prove successful, whether as simple associations formed for the purpose mentioned in the preceding paragraph, or as co-operative societies dealing with the purchase of seeds and implements or with the distribution of agricultural produce. There is probably room for associations combining one or more of these functions. Apart from foreign experience and experience in other Provinces in India, there is also the definite fact that such simple associations, serving thanas, or even smaller areas, have met with marked success in the district of Birbhum in the Bengal Presidency. By the co-operation of official organisation and private effort of this nature not only will the successes obtained by experiment be brought to fruition in the interior, but Government will be furnished with a first-hand agency for ascertaining the real needs and the wishes of the agricultural population.

His Excellency in Council hopes, therefore, to see a further extension of this experiment throughout the Province, particularly in those districts in which demonstration farms already exist or are about to be established, as it is in those districts that the Agricultural Department can give the most help. The formation of such associations rests, however, with the public; and they will only be successful if they are financed and managed by the people. The principle accepted as essential by the Board of Agriculture in India, at their seventh meeting in 1911, was that those who are associated should all be agriculturists, really interested in local agricultural improvement.

The officers of the Departments of Agriculture and Co-operative Societies will be ready at all times with their advice and counsel.

4. **Functions of existing Associations.**—The extension of such small associations, if carried into effect, will inevitably involve some alteration in the functions of the existing provincial, district and divisional agricultural associations. The district associations may, for example, find, as time goes on, that their executive functions are being gradually absorbed by the working village societies. For the present, they may find that their duties are devoted to the organisation of such societies. The development will of necessity be a gradual process, and the present associations will doubtless adapt themselves to changing circumstances or give way to a different organisation if they cease to satisfy a real need.

The divisional associations, in particular, may not be required, while experience may show that the functions at present discharged by the provincial association can be more effectively performed by the new Board of the Agricultural Department which has been created.

5. **Establishment of demonstration and seed farms.**—The research work of the Department, or, more properly speaking, the investigation work, is mainly conducted at the Dacca Agricultural Station, which is the headquarters of the chemical, botanical and fibre sections, while there is a smaller investigating centre in West Bengal at Chinsura. At these centres problems of practical utility to Bengal agriculturists are investigated, such as the production of improved rice, jute and sugarcane, the suitability of various fertilizers, the prevention of insect pests and so on; and not, as there is a tendency in some quarters to believe, research work of a purely academic interest. For the purpose of testing the results obtained at these research stations and demonstrating their value, smaller stations or farms have been established at Rajshahi and Rangpur. Private farms at Burdwan and Kalimpong are also managed by the Department. The utility of these stations has been fully proved and the necessity for small farms in every district accentuated, owing to the success attained in the plant-breeding sections of the Department. It has thus become necessary to arrange for the establishment of a demonstration and seed farm in each district, for the dual purpose of adjusting the results of scientific investigations at the central research stations to local conditions and of taking up the study of purely local

problems. Each farm will form a centre for the demonstration of such items as have been found by actual tests to be suited to local conditions. A programme is, therefore, under contemplation for gradually providing every district in Bengal with a demonstration and seed farm as soon as practicable, whilst official sanction has already been accorded to the establishment of such farms at Mymensingh, Bogra and Comilla.

6. **Co-operation of District Boards in establishment of farms.**—In view of the popular interest in agriculture, it has also been considered desirable to enlist the interest of the District Boards by requesting them to co-operate in the establishment, maintenance and management of the farms, subject to the professional control of the Agricultural Department.

In the view of His Excellency in Council the forms which the assistance from District Boards may legitimately take are as follows :—

(1) Provision of land or of money towards the acquisition of the land or towards the necessary buildings.
(2) Provision for the whole or a portion of the recurring expenditure on a farm.

The Governor in Council holds that District Boards should possess a voice in the management of the farms to the extent to which they contribute, subject to the professional control of the Department. Certain District Boards have already agreed to co-operate on these lines.

7. **Demonstrators.**—For the purpose of advertising the results obtained at the central research stations and on these farms and in advising the small agricultural associations which are expected to come into being, definite circles, such as the area of a police station, are necessary for demonstration work in charge of demonstrators working under the supervision of agricultural officers. Twenty-six district agricultural officers, *i.e.*, one for each district in the Presidency, have now been sanctioned ; five additional agricultural officers have also been appointed for special work ; and there are at present altogether 79 demonstrators. It is contemplated that, with the completion of the programme for the construction of farms and the multiplication of small agricultural associations, the number of these demonstrators will be gradually but largely increased, until there is one for each police station in Bengal.

8. **Seed-stores.**—Experience in Bengal has shown that the immediate result of successful demonstration at any of the farms already in existence is a demand for improved agricultural appliances, and for seed of a new crop or of a new variety of crop. In fact, agricultural improvement in India necessitates in nearly every case the use of some new thing, whether it be seeds, fertilizers, implements or insecticides. This is exemplified by the insistent and growing demand for seed-stores in those districts where seed of a new crop variety has been issued. One seed-store will not be sufficient in a district ; but seed-stores should be established also at every subdivisional head-quarters and at all demonstration centres. To produce the best results such seed-stores should, however, be established and maintained by such bodies as agricultural associations or co-operative societies or local authorities. It is not, therefore, the policy of Government to establish and maintain such seed-stores themselves for areas smaller than a subdivision. Not only would this involve too large a commercial undertaking for a Government—where attempted in other countries, it has ultimately been abandoned for this reason—but it would involve too great an encroachment on the sphere of private effort. There are already 30 stores in existence under the auspices of Government, and 71 are being created under local organisations.

9. **General Policy.**—By the continuance of investigation for practical ends at the central farms, by the creation of demonstration farms in every

district and seed-stores in every subdivision, by the appointment of a staff of agricultural officers and demonstrators in sufficient numbers to aid District Officers and the Department on the one hand, and the agriculturists, either individually or in association, on the other, the Bengal Government are aiming at the solution of the two problems which the Agricultural Adviser to the Government of India has declared to dominate the whole situation : the first is the provision of the best obtainable seed for any type of agricultural produce, and the second the creation of an agency for its distribution.

ORDER.—Ordered that a copy of the Resolution be published in the *Calcutta Gazette* for general information.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 5th June 1919.

Summary.—Light to moderate rain was general and was beneficial for standing crops. More rain is needed for agricultural operations generally. Weeding of autumn crops still continues in some districts. Preparation of land for winter rice is progressing favourably. The average price of common rice for the province has risen by about 2·3 per cent. as compared with that of the previous week. The average number of persons engaged daily on test works in the Brahmanbaria subdivision of the Tippera district was 1387.

Secy. to the Govt. of Bengal.

REVISED RULES FOR THE GRANT OF LEASES OF WASTE LANDS FOR TEA CULTIVATION IN THE DISTRICTS OF JALPAIGURI AND DARJEELING.

SECTION I.

Rules for the grant of preliminary leases.

Area to which these rules apply.

1. **Lands available for lease.**—The lands that are generally available under these rules in the district of Jalpaiguri are the unsettled lands, excepting reserved forests, which lie within that tract of country bounded on the north by Darjeeling and Bhutan, west by the Tista river, south by the State of Cooch Behar, east by the Sankos river. Any lots of waste land belonging to Government which lie in any other parts of the district of Jalpaiguri, and which are not reserved for other purposes, may also be made available for tea cultivation under these rules.

The lands that are generally available in the Darjeeling district lie in the Kalimpong subdivision of the district east of the Tista. They are in two blocks, bounded as follows :—

I.—*North.*—The Labha forest block.
South.—The Lehti, Noam, Pugo and Mal forest blocks.
East.—The Nim Chu to its junction with the Chu Chu, then the Chu Chu to a point about ½ mile below Ambiokh, then a line northwards up to the Ambiokh forest block, and thence southward the boundary of the Dalingkote forest block and the Gooroobathan khas mahal: area about 19·95 square miles.
West.—The Jeet Chu.

II.—*North.*—The Mo forest block.
South and South-West.—The Mochu up to its junction with the Khoomanee.
East.—The Khoomanee and Rongo forest block: area about 8·50 square miles.
West.—The East Nar block.

2. **Lands not available for lease.**—The following lands will not ordinarily be available under these rules :—

(*a*) Lands which, by a notification in the *Calcutta Gazette*, are held to constitute a reserve for the supply of timber, fuel, grazing, or any other articles of general and public consumption.

(*b*) Lands not included in the above category, but which now bear India-rubber trees, or other valuable timber (such as sal, khair, chelownee, sissoo, etc.) in considerable quantities and in compact blocks or patches.

(*c*) Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as render it impolitic or unadvisable to grant such lands to any other person or persons for the purpose of tea cultivation.

(*d*) Lands lying within a distance of 60 feet on either side from the centre of any public road or thoroughfare : provided that such road or thoroughfare shall have been constructed, or shall be kept in repair, from public funds.

(*e*) Lands lying within a distance of 100 feet on either side of any considerable stream or watercourse. Such lands shall remain under forest with a view to prevent soil erosion.

(*f*) Lands which the Local Government may at any time, by a notification in the *Calcutta Gazette*, expressly exempt from the operation of these rules.

3. **Specific exclusion of areas—Power of Government.**—The Local Government reserves to itself the right to exclude any particular area (whether before or after application made) from the system of free grant and to sell grants in that area by auction on such terms of sale and in such manner as the Local Government may determine.

4. **Inclusion of excluded areas—Board's power.**—Applications for grants of land in areas not included in rule 1 or excluded by rule 2 must be referred to the Board of Revenue for the orders of Government in each case. When the application is for a grant of land ordinarily excluded under rule 2 (*b*), the Deputy Commissioner must after due enquiry satisfy the Board of Revenue that the lease will not imperil or seriously diminish the fuel supply of surrounding area.

5. Applications which involve the conversion of jote lands must be dealt with under the provisions of section II (rules 36 to 42).

Application for leases.

6. **Application for lease.**—Every person, company, or association, or promoter of a company or association. desirous of obtaining a grant of land under these rules, must, in person, or by a duly authorised agent, present an application on stamped paper of the value of 8 annas to the Deputy Commissioner of the district in which the land lies.

All such applications must be entered on receipt in Register 16.

7. **Particulars thereof.**—The application must specify—

(*a*) The name or names, and address or addresses of the applicant or applicants, and of his or their authorised agent, if any.

(*b*) The area, situation and boundaries of the land applied for, as far as they can be ascertained without a detailed survey.

(*c*) The particulars, if any, which may appear to the applicant to bring any part of the land applied for within the exceptions mentioned in rule 2. The application must also state whether the land or any part of it, is, or has ever been, cultivated in any manner, and be accompanied by such evidence or guarantees as shall satisfy the Deputy Commissioner and superior Revenue authorities that the applicant has *bonâ fide* at his command sufficient capital to enable him to open out the grant.

8. **Compactness of land.**—Every lot applied for must be compact, and capable of being enclosed in a ring fence; the exact boundaries will however be determined by the Deputy Commissioner with due regard to the provisions of rule 2 and the public interests generally.

9. **Limit as to area.**—Not more than 1,500 acres will ordinarily be granted to any one applicant, company, or association; and when more than 1,500 acres are applied for, the applicant must set forth specifically the grounds for such application.

If, upon proceeding to survey and map out the grant, the Deputy Commissioner finds that it is desirable in the public interests, or for the sake of good boundaries, to include a larger area than 1 500 acres within the area to be granted on the application, it shall be in his discretion, with the sanction of the Commissioner, to grant to one applicant so much land, not exceeding 1,800 acres, as may be necessary to obtain good boundaries and to avoid waste, etc.

10. All applications for more than 1,500 acres will be forwarded by the Deputy Commissioner to the Commissioner who, if he desires to recommend compliance therewith, will forward them to the Board of Revenue, who are empowered to sanction such grants up to a limit of 3,000 acres, and shall take the orders of Government upon application for an area exceeding that amount.

11. **Holder of a grant may apply for a second grant.**—The Deputy Commissioner is empowered to accept applications for a second grant from the holder of an existing grant, provided that he is satisfied that the applicant has *bonâ fide* at his command sufficient capital to warrant the concession, that he has

fulfilled all the conditions attaching to his existing grant and that the total area of the existing grant and the grant applied for does not exceed 1,500 acres. If the total area exceeds 1,500 acres, the sanction of the Commissioner, the Board of Revenue or Government will be required, as laid down in rules 9 and 10.

12. **Application when to be struck off.**—If an applicant shall fail to comply with any requisition of the Deputy Commissioner made in accordance with the rules, or fail to deposit any sums of money (other than the cost of survey under rule 13) for which the applicant is liable under them, within two months after notice in writing shall have been given to him by the Deputy Commissioner, the application may be struck off.

Preliminary Enquiry.

13. (*a*) **Procedure on receipt of application—Deposit of cost of survey, demarcation, etc.**—On receipt of an application, the Deputy Commissioner must satisfy himself, so far as lies in his power, that the requirements of the rules have been complied with. If he considers that the application should be rejected, he will record an order to that effect, giving his reasons for such rejection. An appeal will lie from such order of rejection to the Commissioner of the Division, if preferred within 60 days from the date of the order. If the application is for an area exceeding 1,500 acres and the Deputy Commissioner considers that it might properly be entertained, he will forward the application with his opinion to the Commissioner for submission to the Board. If the Deputy Commissioner considers that an application for such area as it is within his power to grant should be entertained, or, in the case of applications for areas over 1,500 acres, when the orders of Government or the Board accepting the application are received, the applicant or his agent will be required to deposit the estimated cost of the enquiry referred to in the next rule, and the cost of survey and demarcation to be made as hereinafter provided. The amount to be so deposited must be calculated at one rupee per acre of the total area applied for. If the area is found to be greater the sum of one rupee per acre must be paid on account of such excess area before a preliminary lease is granted.

(*b*) **Payments not to cover cost of boundary marks.**—Payments under this rule do not cover the cost of erecting permanent boundary marks under rule 30.

(*c*) **Refund of survey fee.**—In the event of no survey being made, *either on account of the withdrawal of the application or for any other reason*, the applicant shall be entitled to a refund of the survey fee deposited by him, subject to a deduction of the expenditure incurred on the enquiry (if any) under rule 14.

(*d*) **Failure to pay survey fee.**—If the cost of survey is not paid within one month of demand, the application shall be struck off.

14. **Enquiry into condition of land.**—On receipt of the sum payable under rule 13 (*a*), and of an agreemennt signed by the applicant, or by his authorised agent, to pay such further sum as may be required for the purpose above mentioned, the Deputy Commissioner will record an order appointing an officer to visit the land and to make a full and detailed enquiry into its condition and circumstances.

15. **Object of enquiry.**—The general object of such enquiry shall be to ascertain whether or not the land applied for can be granted under the rules in force; but the Deputy Commissioner may instruct the officer making the enquiry to furnish him with such other specific and detailed information as may seem to him to be necessary.

16. **Proceedings on completion of enquiry.**—On completion of this enquiry the officer making it will record the result thereof, and submit a report for the orders of the Deputy Commissioner. If the Deputy Commissioner, after considering the report, and after calling for such further explanations, oral or written, as he may deem necessary, shall be of opinion that the land applied for cannot be granted under the rules, and should not, therefore, be surveyed, he will record an order to that effect. An appeal will lie from such order to the Commissioner of the Division, if preferred within 60 days from the date of the order.

17. **Order for survey.**—If the Deputy Commissioner decides that the land applied for can be granted under the rules, and should therefore be surveyed, he will record an order to that effect.

18. **Value of forest trees standing on land.**—The Deputy Commissioner shall at once send a copy of any order passed under rule 17 to the Conservator of Forests, in order that an estimate may be made by the Forest Department of the value of any forest trees standing on the land. The Conservator of Forests will depute an officer to examine the land and make a detailed report, a copy of which will be allowed to the applicant, suggesting the average rate per acre at which payment should be made for such trees. Such officer, in valuing the timber, shall have regard to its present market value on the spot, and to the local circumstances of the case, the accessibility of the grant, and the prospect of markets for timber becoming available during the currency of the lease. The Conservator will carefully examine the report, and forward it to the Deputy Commissioner with such remarks and alterations as he may think necessary. If the Deputy Commissioner, on receipt of the Conservator's decision, sees reason to object to the proposed rate per acre, he may refer the matter to the Commissioner, who shall take the orders of the Board of Revenue and of Government on any point on which he and the Conservator may eventually differ.

19. **Opposing claim, how to be disposed of.**—If any claim or objection be preferred under Act XXIII of 1863, the Deputy Commissioner will proceed to dispose of the same in accordance with the provisions of that Act.

Survey.

20. **Survey, how to be made.**—The officer who made the enquiry provided for by rules 14 to 16 will, on receipt of an order to that effect from the Deputy Commissioner, proceed to point out to the surveyor the boundaries of the land applied for, and such prominent features in it as may be useful for the purposes of the survey, and which should, in his opinion, be entered in the preliminary lease as hereinafter provided. These will be entered in a list which will be made over to the surveyor under the officer's signature.

21. **Preparation of map.**—The surveyor will then proceed to make the survey and put up such temporary boundary marks as are necessary for that purpose. He must prepare a map showing—

(*a*) All natural features of the country lying within the boundaries as fixed by the officer who made the enquiry under rules 14 to 16, *e.g.*, *bils*, streams, forest clumps, etc.

(*b*) Such features of the country lying outside the boundary of the land to be surveyed as may serve to identify the latter and connect it with the revenue survey or other existing map.

(*c*) The total area within the boundaries after deduction of areas for roads or other Government reserves, jotes, etc., and the net area of the grant

(*d*) Points at which permanent or other marks should be erected by the lessee.

The surveyor is bound to bring to the notice of the Deputy Commissioner any fact which may come to his knowledge in the course of the survey rendering it advisable that the land he is surveying should not be granted under these rules. He is particularly bound to bring to notice any need for public roads across the lands he surveys; and if the Deputy Commissioner concurs with the surveyor in this matter, the road or roads should be marked off on the ground and on the map, and the area to be occupied thereby should be deducted from the rent-paying area of the grant.

22. **Scale of map.**—The map should ordinarily be on a scale of 16 inches to the mile. If possible, the surveyor's field-book should be copied at the back of it. If not, a copy of the field-book should be attached to or accompany the map. If the map be made originally in the vernacular, the Deputy Commissioner will cause it to be translated into English.

23. **Checking of map.**—On the map being completed, it must be checked by an officer appointed by the Deputy Commissioner for the purpose. If found to be incorrect, it will be amended by the surveyor in conjunction with the officer above mentioned. If found to be correct, it will be laid before the Deputy Commissioner with the report of the officer who made the preliminary enquiry under rules 14 to 16, and with all other papers connected with the case and will be signed by the Deputy Commissioner and the applicant.

24. **Consideration of application after survey.**—The Deputy Commissioner will then proceed to consider the application. A date for the purpose must be previously fixed by him, and due notice of it given to the applicant or to his authorised agent.

25. **Rejection of application and refund of deposit for survey.**—The Deputy Commissioner shall have power to reject an application at any stage of the proceedings under the rules, if he sees reason to do so, refunding in such case to the applicant the deposit made by him on account of survey, *minus* such an amount as it may seem to the Deputy Commissioner fair to retain in consideration of the expenses incurred. The Deputy Commissioner is authorised to reject an application when he does not consider that there is a *bonâ fide* intention on the part of the applicant to cultivate in tea the land applied for, or when it appears desirable to reserve the land for cultivation other than tea, or to preserve any forest standing on it. An appeal against every such order of rejection shall lie to the Commissioner of the Division, if preferred within 60 days of the date of the order.

Preliminary leases.

26. **Grant of preliminary lease and payment for forest trees.**—If the Deputy Commissioner grant the application, he will without delay grant the applicant a lease in Form B annexed and call upon him to execute a counterpart thereof, which must be registered, and to pay for forest trees the sum assessed under rule 18. Payment for these may be made by instalments, with the sanction of the Board of Revenue, which will only be given when the Board is fully satisfied of the good faith and solvency of the applicant. In such case the dates and amounts of the instalments shall be endorsed upon the lease, and the lessee must covenant that, in the event of his surrendering or abandoning the lease, all outstanding instalments shall be forthwith recoverable from him, whether the timber on the grant has been cut by him or not; but he shall have no further right to fell or remove timber from the grant.

27. The Board reserves to itself the right—

(*a*) to enter conditions in the lease controlling the establishment and management of markets and *hats* within the area leased,

(*b*) to enter conditions in the lease prohibiting forms of cultivation in specific areas, which might endanger the stability of the soil,

(*c*) to sanction such changes in or additions to the prescribed form of lease as may be necessary for any specific case,

(*d*) to dispense with preliminary leases in special cases or for special areas.

28. **Rates of rent.**—The rent payable for preliminary leases shall be at the following rates:—

Year of entry till 31st March following	...			Nil.	
1st full year from April 1st	...	...		Nil.	
2nd year	...	...	... annas	3	per acre.
3rd „	...	...	... „	6	„
4th „	...	...	... „	9	„
5th „	...	...	... „	12	„

29. **Entry of lease in the Tauzi Roll and Register 32.**—Every lease granted except as covered by the rules for amalgamation of grants shall be entered as a separate Government estate in the Tauzi Roll and in Register 32.

Demarcation and erection of boundary marks.

30. **Erection of boundary marks.**—When granting the lease, the Deputy Commissioner shall also direct the lessee to mark out the land leased, within three months of the granting of the lease, in such manner as may be directed, and by erecting boundary marks at the points indicated on the map. These boundary marks may be of masonry, or of stone, or of iron, of such shape and dimensions as the Deputy Commissioner may direct.

31. **Their rectification.**—On the expiry of the three months from the date of granting the lease, the Surveyor shall test the correctness of the boundary lines, and ascertain whether the boundary marks have been erected and are in their proper places, and report the result to the Deputy Commissioner, at the same time pointing out to the lessee or his representative by written notice, any mistakes or omissions that may be found. If the mistakes or omissions are not rectified or supplied by the lessee or his representative within 60 days of the receipt of such notice, the lessee or his

representative shall be liable to a fine, not exceeding Rs. 50 per day, from the date of the expiry of such notice till the requirements of the notice have been complied with If, at the expiration of 30 more days, he fails to rectify the mistakes and omissions, the Deputy Commissioner may direct that such rectification shall be carried out, and may recover from the lessee the cost of so doing.

Recovery of costs, etc.

32. **Fines, etc., how to be recovered.**—Fines, costs, or any other money that may become due from applicants or lessees to Government under rules 13, 14, 26, 31 and 35 shall be realisable as public demands.

Preliminary possession.

33. **Preliminary possession by grantee.**—Whenever, after receipt of an application, as provided for in rule 6, and after making the enquiries prescribed in rule 14, the Deputy Commissioner shall be of opinion that there is no *primâ facie* objection whatever to the grant under the rules of the land applied for, he may put the applicant in preliminary and provisional possession of any area not exceeding one-eighth of the estimated area of the land applied for, with the object of enabling the applicant to make preparations for commencing cultivation and getting the land in order; provided that the applicant, before obtaining such preliminary possession, shall have cleared the boundaries and erected such temporary boundary marks round the whole of the area applied for as the Deputy Commissioner may direct, and that the amount of all estimated charges incurred in connection with such preliminary occupation shall have been deposited by the applicant; provided further, that the applicant shall engage in writing to pay the cost of any trees felled at such rate as may be determined by the Forest Department after inspection of the land under rule 18, and provided further, that the applicant shall take on himself all risk of loss occasioned by other claims being preferred to the land or by his application being eventually rejected or from any other cause whatsoever. Such preliminary and provisional possesion is not to be regarded as fixing the date of entry upon the grant.

34. **Order for giving preliminary occupation.**—The order for, and conditions of, such preliminary occupation shall be in Form A annexed, and shall be addressed to an officer appointed by the Deputy Commissioner. A copy of the order shall be delivered to the applicant at the time of giving preliminary possession by the officer who gives it, the officer signing and dating it then and there. The original order shall be signed by the applicant on the date he receives possession in acknowledgment thereof, and shall be forwarded by the officer with his report written on the back to the Deputy Commissioner for record in his office.

Transfers of applications.

35. **Transfer of application.**—If any transfer of an application for land is desired before the grant of the perliminary lease, and if such a transfer is allowed, it must be registered in the Deputy Commissioner's office within 21 days of the issue of the order allowing the transfer, or within three months if the deed be executed out of India, and a fee of one rupee an acre must be paid by the transferee. No transfer, however, will be allowed unless the transferee would be eligible as an applicant under rule 7 or as holder of a second grant under rule 11.

SECTION. II.

Rules for conversion of jote lands for tea cultivation.

36. **Applications for conversion.**—No application which involves the conversion of jote lands shall be entertained, unless the applicant has obtained the previous sanction of Government through the Board of Revenue to the purchase and amalgamation of the jotes. The application for such sanction shall be submitted, with court-fee stamp of Re. 1 affixed, to the

Board of Revenue through the Deputy Commissioner and the Commissioner, and it shall specify the following particulars :—

(*a*) The name or names and address or addresses of the applicant or applicants, and of his or their authorised agent, if any.

(*b*) The area, situation and boundaries of the jotes whose amalgamation is applied for. A copy of the last settlement map of the jotes in question shall be furnished.

(*c*) If the jotes to be amalgamated are intended to form part of an existing tea grant, the tauzi number of the grant and its distance from the jotes should be mentioned.

(*d*) The name or names of the parties from whom the applicants intend to purchase the jotes should be mentioned, specifying the reason why the former are selling them.

37. On receipt of such an application the Deputy Commissioner shall make a full and detailed enquiry as to the following matters :—

(*a*) the suitability of the land for tea cultivation ;

(*b*) whether the applicants have sufficient capital at their disposal to start a tea garden ;

(*c*) whether the proposed transfer is a voluntary or forced transaction ;

(*d*) whether the price which the applicants propose to pay for the land is fair ;

(*e*) whether adequate compensation will be paid to the sub-tenants on the land, if any ;

(*f*) whether there is any specific objection to the establishment of a tea garden in the locality ;

(*g*) whether the supply of food crops in the area is sufficient to justify the conversion of jote lands.

38. **Application for purchase and settlement.**—Where the application takes the form of a request to sanction the purchase of jote lands combined with a request to settle other neighbouring khas lands with the applicants, the Deputy Commissioner's enquiry should be on the same lines as those described in the previous rule, *i.e.*, the suitability of the khas land for tea cultivation ; the provisions of section I, rule 2, should also be considered at the time of making the enquiry as to the circumstances of the jote lands.

39. **Report to Board.**—After completing his enquiry the Deputy Commissioner will submit a detailed report along with the application to the Board of Revenue through the Commissioner. The orders of the Board or Government will similarly be conveyed to the Deputy Commissioner through the Commissioner.

40. **Procedure when the application is sanctioned.**—If the application be sanctioned the applicant shall again apply with a court-fee stamp of 8 annas to the Deputy Commissioner. The application shall, among other particulars, state the number and date of the Government order sanctioning the purchase and amalgamation of the jotes. Such an application shall be treated, in other respects, as an application for the lease of waste lands for the cultivation of tea and the same procedure as is laid down for the lease of waste lands shall be followed except as otherwise provided in these rules.

41. (*a*) **In the case of the formation of a separate grant.**—If the application is for the formation of a separate grant, the procedure laid down for the lease of waste lands for tea cultivation shall be followed in its entirety except that the lease shall be in the renewed lease form and the rate of rent shall be fixed by the Board of Revenue on the report of the Deputy Commissioner, but shall not exceed the rate of rent per acre paid in the neighbourhood at the time of lease for the highest class of land under ordinary cultivation.

(*b*) **In the case of an amalgamation with existing grant.**—If the application is for amalgamation of the jotes with an existing grant, the applicant shall surrender his lease for the existing grant, and a new lease will be given to him in place of the old, showing the changes in the area and the increase of revenue payable in consequence thereof. The new lease will be in the form of lease for the existing grant, *i.e.*, in the preliminary or renewed lease form, as the case may be, and the rate of rent for the converted jote land shall be the same as in the old lease.

42. **Tauzi procedure.**—If the converted jote lands are amalgamated with an existing grant, intimation shall be conveyed to the Tauzi Department of the

alteration in the revenue of the grant and to the proper Revenue officer for abatement of rent due on account of the converted jotes.

If the converted jote lands form a new grant, intimation shall be conveyed to the Tauzi Department for assigning a tauzi number to the new grant in the tauzi roll and to the proper Revenue officer for abatement of rent due on account of the converted jotes.

SECTION III.

Rules for the maintenance and renewal of tea leases.

Transfers and amalgamations.

43. **Sanction and regulation.**—Lessees are not permitted to transfer, club or amalgamate their grants without the formal sanction of the Deputy Commissioner: no transfer shall, however, be sanctioned unless the clearance conditions of the lease have been fully carried out by the transferor. All such transfers or amalgamations of titles must be registered in the Deputy Commissioner's office under the provisions of the Land Registration Act, VII (B.C.) of 1876 (*vide* Part I, Chapter 1, rule 12).

44. **Entry of amalgamated grant in Tauzi Roll.**—When two or more grants are amalgamated they will appear on the Tauzi Roll under one entry, retaining the tauzi number of the largest grant [*vide* rule 19(vi), Chapter III, Tauzi Manual, 1918.]

45. **Conditions of amalgamation.**—When an amalgamation of grants held under preliminary leases has been sanctioned by the Deputy Commissioner, and duly registered, the percentage of clearance required by the terms of the lease shall be calculated on the amalgamated area. Unauthorised amalgamations shall subject the lessees of forfeiture to all rights in the lands so amalgamated.

Preservation of boundary marks.

46. **Maintenance of boundary.**—The lessee shall maintain the boundaries of the grant clear of jungle and all the boundary marks in good repair; he shall clear the boundaries of jungle at least once a year, not later than the end of February.

47. **Preservation of boundary marks.**—If upon any inspection being made it shall be found that, owing to the neglect of the lessee, the boundary lines and boundary marks of his grant have either never been cleared and erected in accordance with instructions received by him, or have been allowed to fall out of repair or become covered with jungle in such a manner that, without a resurvey of the entire boundary line or a portion thereof, the exact portion of such boundary marks or lines cannot be ascertained, the Deputy Commissioner may direct that such resurvey be made and may recover from the lessee such sum, not exceeding one rupee eight annas per acre of the grant, as may suffice to defray the cost of such resurvey.

48. **Inspection of boundary marks.**—The Deputy Commissioner shall himself occasionally inspect and shall arrange for the regular inspection of all boundary lines and marks required to be maintained and erected under the terms of the lease. The result of these inspections and the general condition of the boundary lines and marks shall be reported in the Land Revenue Administration report.

49. **Repair of boundary marks.**—Should any boundary lines or marks be found out of order, the Deputy Commissioner shall issue a notice on the lessee or his representative, requiring him to place the same in order within 30 days of the receipt of the said notice; on his failing to do so the Deputy Commissioner shall cause the same to be put in order, and shall recover from the lessee or his representative the cost of so doing.

Surveys.

50. **Excess area.**—If the lessee is at any time found by survey or otherwise to be in possession of land in excess of the area for which he has paid rent, he shall pay rent, at the rates payable by him for the grant itself, for such excess land, whether it be within or without the boundaries, described in the lease or map, from one year after he entered on the

occupation of the grant or any portion of it, unless it is established to the satisfaction of the Deputy Commissioner that no possession of the excess land was taken until after the grant of the renewed lease; in the latter case rent shall be payable from the date of the expiry of the preliminary lease; provided, however, that such unauthorised occupation of excess land and payment of rent therefor, shall give the trespasser no right to continued occupation, and the Deputy Commissioner shall be entitled to recover possession of the excess area. In deciding whether the trespasser should be left in occupation, he should pay particular attention to the provisions of section 1, rule 2.

51. **Resurvey or resettlement.**—In the absence of specific orders of the Board of Revenue to the contrary, the renewal of a grant shall always be preceded by a detailed survey of the boundaries and the preparation of a new map, on which all boundary lines and marks shall be clearly shown; such further details as the Deputy Commissioner may think necessary shall also be shown on the map. The full cost of such survey and map shall be borne by the lessee, who shall deposit the estimated cost in advance at a rate not exceeding Re. 1 per acre. The Board of Revenue will not ordinarily require a fresh survey where no alterations in boundary have been reported and where the boundary marks are in proper order provided that a map already exists prepared under the authority of Government within the last 15 years. A private survey can only be accepted subject to check by an officer deputed by the Deputy Commissioner.

Recovery of costs, fines, etc.

52. **Realisation of costs and fines, etc.**—All costs or fines payable under rules 43, 47, 49, 50 and 51 that may become due from lessees or their representatives shall be realisable as public demands.

Preliminary procedure for resettlement.

53. **Maintenance of Register 32.**—Under the provision of rule 29 all leases for tea cultivation are entered under separate tauzi numbers in Register 32; the rules for the maintenance of this register must be strictly followed, as it enables the Deputy Commissioner to see on what date the lease of each grant in his district expires.

54. **Procedure to ensure resettlement on expiry.**—Resettlement of all tea grants, whether under the present or former rules, shall be included in the annual general programme and estimates for resettlements. The Deputy Commissioner shall be responsible for taking steps in due time either for the termination of tea grant leases on their expiry or for resettlement in accordance with the rules in force. It must not be forgotten that a resettlement necessitates a fresh survey, and the appointment of additional staff, and accordingly requires time.

55. **Summary settlements.**—If for any reason the proceedings for resettlement cannot be concluded before the first latest date of payment after the expiry of the current lease, provided that the delay is not due to the neglect or obstruction of the lessee, the existing lease should be renewed summarily for a period of one year on existing conditions. The reason for the failure to renew the lease in due time should be reported to the Commissioner.

Renewal leases.

56. **Conditions of former lease to be maintained.**—The terms of the resettlement of tea grants must be based on the conditions laid down in the existing leases, provided that nothing in these rules shall be held to prevent the addition of such clauses in the renewed lease as may be deemed necessary and are not inconsistent with the law and rules or the express conditions of the grant. Such additional clauses, however, shall not have retrospective effect.

57 **Type of renewal lease.**—A standard form of renewal lease is given in Form C. This form must be used invariably in the cases of renewals of preliminary leases granted under the rules of 1919, and should be adopted with necessary modifications for the renewal of leases originally granted under earlier rules. The counterpart, which the lessee should be called upon to execute, must be registered under the Indian Registration Act.

58. **Refusal of renewal on breach of conditions.**—Where the lessee or his representative has failed to observe any of the essential conditions of the

lease, he is not entitled as of right to resettlement. The clearance of the percentage of area as required by clause 4 of the preliminary lease (Form B) is such an essential condition, and resettlement should not be allowed where there has been a failure to observe the clearance clauses, as companies and individuals cannot be permitted to take up large quantities of land merely to hold until it suits them to cultivate.

59. **Condonement of breach of conditions.**—Where the breach of any essential condition of the lease has been condoned, the lessee shall not be entitled to the benefit of any special conditions or privileges contained in his lease on renewal, but shall be required to accept the terms and conditions in the prescribed form of renewal lease (Form C).

60. **Respect of special conditions.**—Where all the essential conditions of the lease have been observed, the lessee is entitled to the benefit of any special privileges due to him on renewal according to the terms of his lease, even though they are inconsistent with the terms of the prescribed form of renewal lease. These privileges must be duly respected, but in drawing up the new form of lease regard must be had to the provisions of rules 56 and 57 above.

61. **Term of leases and rate of rent.**—The ordinary term for renewal of tea leases shall be a period of 30 years; the rate of rent shall not exceed the rate paid in the neighbourhood at the time of renewal for the highest class of land under ordinary cultivation, provided that in no case shall the average rate of rent on the entire area of the land leased be less than rupee one per acre.

62. **Liability to payment of cesses.**—The lessees shall pay all cesses, such as road and public works cesses, at the rates fixed under the law, and shall be liable to pay any other cesses that may subsequently be imposed by law in addition to the rent assessed.

63. **Sanction of Board for renewal of leases.**—All renewals of tea leases require the sanction of the Board of Revenue. To obtain the necessary sanction a report will be submitted by the Deputy Commissioner through the Commissioner; the report should contain the following particulars:—

(*a*) Description of the survey required under rule 51.
(*b*) Report on condition of boundary lines and marks.
(*c*) Steps taken to ensure renewal of lease in due time (rules 54 and 55).
(*d*) Proposed rate of rent and method of assessment.
(*e*) Copy of existing form of lease.
(*f*) Proposed renewal form of lease (if not in prescribed form).
(*g*) Reasons for action taken for breach of conditions of lease (rules 58 and 59).
(*h*) Explanation of clauses in proposed lease differing from the prescribed form.

64. **Appeals.**—An appeal may be made to the Commissioner against any order of the Deputy Commissioner inflicting a fine or other penalty for a breach of the preliminary or renewal lease and an appeal may be made to the Board of Revenue against any order of the Commissioner ordering resumption of the land or the forfeiture of the lease.

the expiration of such term, it is found that 15 per cent. of the total area held under the lease has been brought under cultivation by means of good husbandry and actually bears tea plants the lessee shall be entitled to the renewal of the lease for a further period of 30 years and to renewals for similar periods in perpetuity, subject to the rules and the terms and conditions of the renewal leases, and to such clauses as the Local Government may from time to time find it necessary to add on the renewal of a lease; provided that such additional clause shall not be inconsistent with the law or the express conditions of the grant, and shall not have retrospective effect.

Draft amendment.

Delete items 13 and 15 and *read* item 14 as item 13.

Add as item 14.

14. (*1*) During the period of closure of the Tolly's Nala at Samookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *viâ* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(*2*) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(*3*) (*a*) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(*b*) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment.

(*c*) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(*4*) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

CHAPTER 11.

AN ACT TO PROVIDE, DURING TWELVE MONTHS, FOR THE DISCIPLINE AND REGULATION OF THE ARMY.

[16th April 1919.]

WHEREAS the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by His Majesty and this present Parliament that a body of forces should be continued for the safety of the United Kingdom and the defence of the possessions of His Majesty's Crown, and that the whole number of such forces should consist of two million six hundred and fifty thousand, including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within His Majesty's Indian possessions:

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in His Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the Government of His Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm, by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm; yet, nevertheless, it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert His Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

44 and 45 Vict., c. 58

And whereas the Army Act will expire in the year one thousand nine hundred and nineteen on the following days:

(*a*) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April; and

(*b*) Elsewhere, whether within or without His Majesty's dominions on the thirty-first day of July:

Be it therefore enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

Short title

1. This Act may be cited as the Army (Annual) Act, 1919.

Army Act to be in force for specified times.

2. (*1*) The Army Act shall be and remain in force during the periods hereinafter mentioned, and no longer, unless otherwise provided by Parliament (that is to say):—

(*a*) Forefeiture of seniority of rank either in the army or in the corps to which the offender belongs, or in both.

An Open General Licence has been issued allowing goods on Section "C" of the Prohibited List, including those shown in Appendix No. 1 (above), but not including

*Many goods on the above Lists are already on List A or B.

any goods contained in Section "D" (page 448), to be exported freely by freight from this country to Norway, Sweden, Denmark, Holland and Switzerland, on the following terms:—

Norway and Sweden.—Individual guarantees in respect of exports are no longer required, but the goods must be consigned to the appropriate import associations In order that the method of consignment may be checked, an arrangement has been made whereby shippers are to forward the Customs Shipping Bills to the Export Licence Department, 4, Central Buildings, Westminster, S. W. 1 (in envelopes marked "Shipping Section"), for approval. The Shipping Bills will be amended, if necessary, and returned to the shippers stamped "Approved." Upon the production of approved Shipping Bills shipment will be allowed by H. M. Customs without any form of guarantee, subject to the usual Customs formalities. This procedure will not apply to any licences which have already been issued or which may hereafter be issued in special cases.

Denmark.—The usual guarantees must be produced to the Customs at the time of shipment. The guarantees need not be produced to the Customs in any case where individual licences have been or may be issued in special cases.

Holland.—All goods may be consigned to the Netherlands Oversea Trust for account of the sub-consignee, without the prior production of an N. O. T. certificate, though exporters who actually hold certificates should hand them to the Customs at the time of shipment. The same procedure will apply to outstanding licences.

Switzerland.—All consignable goods may be consigned to the Socéité Suisse de Surveillance Economique for account of the sub-consignee without prior production of any form of certificate though exporters who actually hold certificates should hand them to the Customs at the time of shipment. The same procedure will apply to outstanding licences.

In cases where the associations specified above refuse generally or specifically to accept consignment and exporters make a declaration to the Customs to this effect, goods may be consigned to the Inter-Allied Trade Committees in Christiania, Stockholm, Copenhagen or The Hague, on account of the sub-consignee. In the case of Switzerland, consignment of such goods should be made to the British Legation at Berne. The local Inter-Allied Trade Committees (or the British Legation as the case may be) will endorse the Bills of Lading (without any financial liability) on receipt of satisfactory guarantees from the consignee.

Further information will be given as soon as it is known which of the above-mentioned organisations are prepared to accept consignment. Meantime, consignors should get into touch with consignees in respect of goods which will be ready for shipment in the next few weeks, with a view to ascertaining whether the appropriate association will accept consignment or not.

An open general licence has been issued which permits the free export of all *bonâ fide* samples of probibited goods to all non-enemy destinations, and to enemy territory with which trade is now permitted (*see page* 448). Exporters will be required to satisfy the Customs Authorities that the goods presented for export under this licence are *bonâ fide* samples, and to make a declaration to that effect on the relative shipping documents.

URGENT ORDERS.

The Board of Trade, Export Licence Department, announces that, in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which requires immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightway with the knowledge that upon application being made in the proper form to the Export Licence Department the Licence will be granted.

The telegrams should be addressed to "Orders, c/o Advantage, Stock, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory in the occupation of troops of the Associated Governments, the consignee need not be stated; and it will be sufficient merely to give the country of destination. A reply of 24 words (s.1/3) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 73, Basinghall Street, E.C. 3.

Amendments.

(1) In the third line of the Bengal Government notification of the 11th February 1886, issued under clauses (*b*), (*c*), (*d*), (*e*), (*f*), (*h*), (*i*), (*q*), (*s*) and (*t*) of section 138 of the Bengal Local Self-Government Act of 1885, after the figures "138" *insert* the letter and brackets "(*a*)".

(2) Before rule 76 of the said rules *insert* the following rules under the heading "Election of Chairman or Vice-Chairman" as rules 75A, 75B, 75C, 75D and 75E, respectively :—

"75A. When any orders under section 22 or section 29, sub-section (*1*) of the Bengal Local Self-Government Act of 1885 have been received by a District Board, a special meeting of the Board, at which there shall be a quorum, shall be held for the election of a Chairman within one month,—

(*a*) in the case of a newly constituted or reconstituted District Board from the date on which the names of the elected members and the names or official designation of the appointed members of the Board shall have been published in the *Calcutta Gazette*, and

(*b*) in any other case, from the date of the receipt by the Board of the said orders directing the election of a Chairman.

75B (1) Whenever a meeting of a newly constituted or reconstituted District Board is held for the purpose of electing a Chairman, it shall be presided over by a member of the District Board, who shall be elected by the members of the Board for conducting the election. The President in such cases must be duly proposed and seconded and must not be a candidate for the office of Chairman.

(2) Any meeting of a District Board other than a newly constituted or reconstituted Board held for the purpose of electing a Chairman shall be presided over by the outgoing Chairman, or in his absence, or if the period of office of the Chairman has expired, by the Vice-Chairman :

Provided that should the outgoing Chairman be himself a candidate for election, the meeting shall be presided over by the Vice-Chairman if he is not also a candidate for election :

Provided further that if there is no Chairman, and the Vice-Chairman is a candidate for election, and also, if the Chairman and Vice-Chairman be both candidates for election, the meeting shall be presided over by a member of the District Board other than the Chairman or Vice-Chairman, who shall be elected by the members of the Board for the purpose of conducting the election of the Chairman. The President in such case must be duly proposed and seconded, and must not be a candidate for the office of Chairman.

75C. If only one member is proposed and seconded as President, he shall be deemed to be duly elected as such. If more than one member is proposed and seconded, the members present shall decide the election by vote. The votes may be taken by voices or by show of hands.

75D. If the votes for two or more members proposed as President of the meeting are equal, then the selection of one of them shall be decided by lot.

75E. The election of the Chairman of the District Board shall proceed as follows :—

(*a*) Any member present may propose a candidate either by name or by virtue of his office for the office of Chairman.

(*b*) No candidature shall be taken into consideration unless it has been seconded by a member other than the proposer.

(*c*) If one duly nominated candidate duly stands for election, the President shall forthwith declare such candidate to be elected.

(*d*) When the names of all the candidates proposed and seconded have been ascertained, the President shall hand to each member a voting paper in which will have been entered up the names of the candidates who have been duly nominated, and shall ask each member to record his vote by placing the mark X opposite the name of the candidate whom he prefers.

(*e*) The voting paper shall be invalid if the mark X is placed opposite the name of more than one candidate, or if it is so placed as to render it doubtful to which candidate such mark is intended to apply.

(*f*) When the voting has been completed, each member shall sign his voting paper and shall hand the same to the President. Without such signatures the voting paper shall be invalid.

(*g*) The President shall have the right of participating in the election of the Chairman and shall similarly record his vote.

(*h*) The President, as soon as all the voting papers have been delivered to him, shall produce them openly and read them, and shall count the votes. The President shall reject any voting paper which is invalid or which has been irregularly filled in, and his decision shall be final.

(*i*) When the counting of the votes has been completed, the President shall declare the candidate to whom the largest number of votes has been given to be elected Chairman.

(*j*) In the case of an equality of votes the President shall have a casting vote.

(*k*) The President shall forthwith report the result of the election to the Commissioner for submission to Local Government for confirmation.

(*l*) Every election made under these rules shall be subject to the approval of the Local Government.

(*m*) A quorum for the purpose of these rules shall consist of half the members of the District Board."

(3) From the first sentence of rule 76 *delete* the words "and, if the Lieutenant Governor has so directed, shall also elect one of their number to be Chairman."

(4) From the second sentence of the said rule *omit* the words "or Chairman," "or the Chairman" and "as the case may be."

(5) *Re-number* rule 76 as rule 76, sub-rule (*1*), and *insert* the following as sub-rule (*2*):—

"(2) The election of the Vice Chairman shall be made in the same manner as that of the Chairman."

RESOLUTION REVIEWING THE REPORTS ON THE OPERATIONS OF THE CALCUTTA IMPROVEMENT TRUST FOR THE THREE YEARS ENDING 31ST MARCH 1918.

GOVERNMENT OF BENGAL.

MUNICIPAL DEPARTMENT.

Municipal.

DARJEELING, THE 7TH JUNE 1919.

RESOLUTION No. 330T.—M.

READ—

The reports on the operations of the Calcutta Improvement Trust for the years 1915-16, 1916-17 and 1917-18.

THE Board of Trustees for the Improvement of Calcutta has now been at work for more than six years. A Resolution on its work during the first three years was recorded in 1915, and it is now proposed to review briefly its operations during the subsequent three years. The work of the Trust

during this period was retarded by several adverse circumstances. Its investments in Government securities were depreciated by the war ; engineering materials not only rose greatly in price, but were frequently almost unobtainable ; the floatation of loans, on which the Trust must rely to finance some of its most costly schemes, was impossible. Another disturbing factor was the prolonged litigation which arose concering the right of the Trust to acquire surplus lands. In spite, however, of these difficulties, the Trust made steady progress with its important task. Large areas which were formerly congested and insanitary slums have now been transformed beyond recognition ; and a system of main streets for Calcutta proper has been adopted, and for the most part sanctioned by Government, in the form of either improvement schemes or alignments.

2. **Improvement schemes.**—Of 16 improvement schemes submitted to Government during the last three years, 12 have received sanction, one is under consideration, while three have been abandoned or modified. The Surtibagan scheme has been a striking success. The Trust intervened at an opportune moment, when bustee conditions were beginning to give way before the speculative builder, and the high prices realized for surplus lands enabled it to recover the cost of the scheme, which has converted a congested insanitary area into a good residential locality. Equally noticeable are the changes effected by the Shambazar bridge road and Cornwallis Street widening schemes at the northern extremity of the city, by the widening of Old Post Office Street, by the conversion of Russa Road into a splendid highway, by the transformation effected in Bhowanipur, and by the progress made with the great north and south thoroughfare (Central Avenue) which carries on the design of the town planners of 1856. It is an interesting fact that, whereas the thoroughfare, 3 miles long, which was planned in that year, but ended with the first instalment known as Halliday Street, was constructed at a cost of 11 lakhs, the acquisition of land for the Central Avenue will alone involve an expenditure of some 200 lakhs gross and 50 lakhs nett. It is unnecessary to describe the details of this great project, but some reference must be made to the controversy which has centred round the linking up of the Avenue with Chowringhee. No less than eight designs were prepared by the Chief Surveyor to the Trust, and the Board eventually submitted for sanction one of which Government could not approve, as it was inferior, as regards both facilities for traffic and architectural effect, to a plan under which the Avenue passes on both sides of the Dharamtollah mosque, and an alternative plan based on the views of Mr. Lanchester, the town-planning expert, in which the road is aligned to the west of the mosque. The Board was accordingly requested to give further consideration to the two latter plans.

One of the most ambitious schemes of the Trust is that for the construction of a fine thoroughfare to connect the Howrah bridge with the centre of commercial Calcutta. The estimated nett cost of the scheme is nearly 75½ lakhs, and it will be necessary to raise funds by the issue of debentures. In the meantime, the alignment of the proposed public street has been published in order to prevent the erection of new buildings on the road-line.

3. **Squares and parks.**—The Trust resolved in 1914 to earmark 10 lakhs for the purpose of forming open spaces and squares in congested areas, and three schemes have now been sanctioned, viz., the Ripon Street triangle, the Marcus Square extension and the St. James' Square. The Shambazar Park scheme is a project of greater importance, providing as it does for a park extending over 53 bighas, which, in combination with the fringe area scheme of the Corporation, will provide splendid recreation grounds for the youth of northern Calcutta.

4. **Improvement of Barabazar.**—The report for 1916-17 points out that the improvement of Barabazar, the Indian business centre of Calcutta, is in many ways a problem by itself. Lofty buildings, into which light and air in many cases hardly penetrate, abut on narrow roads thronged with heavy cart traffic, or on noisome gullies, which defy the efforts of the conservancy staff. The opening up of wide streets and the abatement of insanitary conditions are required both on grounds of public health and in order to facilitate the operations of trade. The high price of land, however, the

large vested interests involved, and the substantial character of the buildings render an improvement scheme for this area one of peculiar difficulty. Both the Board and the Corporation have carefully examined the problem, and a thorough survey of the buildings in the area has been carried out by the Trust. It is reassuring to learn that the result of these enquiries is to indicate that "improvement schemes can be carried out in Barabazar without incurring prohibitive expenditure, and that the best method of dealing with the problem is to carry out such schemes under the powers conferred by the existing Act".

5. **Extension of operations to suburban municipalities.**—"Howrah and the suburban municipalities," writes Mr. Bompas in the report for 1915-16, "are now much in the state in which the north of Calcutta was 60 years ago: they will eventually have to be furnished with main thoroughfares and adequate open spaces. It is to be hoped that Calcutta's lesson of the costliness of delay will be laid to heart." Accordingly, the Trust has had under contemplation several schemes for developing the neighbouring municipalities in order to provide for the expansion of Calcutta and render them fit to receive the overflow of its population. A scheme for the creation of a garden suburb in Cossipore-Chitpur has been prepared, but has had to be held in abeyance owing to a proposal to align the Grand Trunk Canal through the area selected by the Trust for development. An improvement scheme has been prepared for Maniktollah, which will, when properly drained, form the most natural area for the expansion of northern Calcutta. The question of extending its operations to Howrah has been the subject of prolonged discussion by the Trust, which has come to contradictory decisions on the subject. In March 1916, it resolved by a majority of 7 to 2 that its operations should be extended to Howrah. A rough scheme and estimate were then prepared and submitted to the Board of Trustees, and after considering them it resolved by a majority of 6 to 5 against an extension of the Act to Howrah. The proposal has, however, been welcomed by the Municipal Commissioners of Howrah. In view of the urgent necessity of improving Howrah and preventing the growth and prepetuation on the west bank of the Hooghly of conditions which can hereafter be remedied only at enormous expense, Government is considering the introduction of legislation to enable its improvement to be taken up.

6. **Excavation area.**—The suburban area is studded with tanks which must be filled up, both for sanitary reasons and in order to provide building sites; and one of the greatest obstacles to town planning operations is the practical difficulty of obtaining earth for the purpose. The Governor in Council congratulates the Trust on the foresight with which it has handled this problem by acquiring some 400 bighas of land in Ward XXI, from which an adequate supply of earth will be obtained, while the excavation area will gradually be transformed into a spacious park and lake.

7. **Re-housing schemes.**—One of the objects of the Calcutta Improvement Act is the re-housing of persons of the poorer and working classes displaced by the execution of improvement schemes, but so far the action taken by the Trust to carry out this object does not appear to have been either adequate or satisfactory in its results. It has undertaken only one re-housing scheme, which cannot be said to have been a success. The buildings erected by the Trust consist of a block of tenement dwellings (like the chawls set up by the Bombay Improvement Trust) which have not attracted the class for which they were intended. They are now largely occupied by men of the poorer *bhadralok* class, students and others living without their families, who have not been displaced by the operations of the Trust. The whole question has recently been reviewed by the Board of Trustees and by Government, and the Governor in Council is pleased to observe that the Trust is contemplating the provision of housing facilities for those who are rendered homeless by the removal of bustees.

8. **Proposed public streets.**—The execution of large street schemes involving extensive engineering works, has, for obvious reasons, to be spread over several years, while in the meantime old buildings make room for new and more costly structures. The consequent necessity of vesting the Trust

with powers, similar to those already enjoyed by the Corporation, of preventing important schemes being blocked by the erection of new buildings was soon realized after the Trust began its operations, and the Calcutta Improvement Amendment Act (III B. C. of 1915) gave it authority to lay down the lines of projected public streets and to prohibit the erection of new buildings within such lines. Altogether 31 important alignments were published by the Trust in the period under review; and 21 have been sanctioned by Government, thus largely setting at rest the uncertainty caused to intending builders by the operations of the Trust.

9. **Finance.**—The total receipts under the capital account during the three years ending the 31st March 1918 amounted to 58½ lakhs (against 43 lakhs accrued during the previous three years). The sale and lease of lands and buildings accounted for 48½ lakhs; the remaining 10 lakhs was the second instalment of the Government grant of 50 lakhs in aid of the capital account of the Board. The expenditure under the capital account during the same period on account of acquisition of land and engineering works amounted to 117½ lakhs against 52 lakhs spent during the previous three years. The deficit of 59 lakhs was met from the surplus available under the revenue account.

The revenue account opened in 1915-16 with a balance of 67 lakhs and the receipts during the three years under review amounted to 85½ lakhs, against 75 lakhs during the previous three years. This sum included 44½ lakhs derived from taxation, viz., the duty on transfers of property, the terminal tax and the duty on jute, 26 lakhs contributed by the Calcutta Corporation (partly in municipal debentures at their face value), a recurring grant of 4½ lakhs from Government, 6½ lakhs obtained from interest on investments and 4 lakhs derived from rents and miscellaneous receipts. The expenditure under the revenue account during the same period amounted to 14 lakhs on account of establishment and rents, rates and taxes, and 8 lakhs on account of depreciation of investments. The account closed on the 31st March 1918 with a surplus balance of 130½ lakhs, including two sums of 9 lakhs and 59 lakhs transferred to the capital account.

The actual commitments of the Trust on schemes already undertaken are considerable, while 30¼ lakhs of the balance consists of depreciated Government securities. It seems clear that at the present rate of work the cash balances, in spite of the accretion of the capital account by the sale of land, will be largely depleted by the execution of important works now in hand, while the sanctioned schemes not yet begun will involve in the near future a large cash expenditure on the acquisition of land (which will subsequently, however, be recouped in a considerable measure) and a large outlay on engineering works.

10. **Attitude of the public towards the Trust.**—The misgivings and even hostility with which some sections of the public viewed the creation of the Trust appear to have given place to a juster appreciation of the public good. Evidence of its work for the betterment of Calcutta is visible in many quarters, and the citizens of Calcutta have begun to realize the value of its operations in spite of the necessary conflict with private interests which they involve. This change of view appears to be due both to the good sense of the people and to the tact and sympathy which the Trust and Land Acquisition Officers have shown in their dealings with the public. Residents of insanitary localities now generally either welcome or acquiesce in its intervention. A significant instance of this altered attitude is afforded by the resolution passed unanimously by the Municipal Commissioners of Howrah that the provisions of the Calcutta Improvement Act should be extended to that municipality without further delay. The complaint that the south of Calcutta has received more attention than the north, and the demand that the Trust should give preference to the latter, are in themselves an admission of the beneficent work of the Trust. The Governor in Council is disposed to think that the complaint, less common than it used to be, has no justification in fact. The Russa Road and Bhowanipur schemes find a worthy counterpart in those for Shambazar, Surtibagan and the Central Avenue. An examination of the programme of the Trust, moreover, gives convincing proof that it has

been guided and influenced by a broad-minded conception of the needs of Calcutta as a whole.

11. **Conclusion.**—In congratulating the Trust on the work it has done, on the large yet prudent policy it has followed, and on the steady prosecution of its programme, in spite of financial stringency and costly litigation, the Governor in Council desires to offer his special thanks to Mr. Bompas, who will, he understands, be shortly retiring. It fell to the lot of Mr. Bompas, as the first Chairman of the Trust, to lay down the broad lines of its work. Presented with large funds, and asked in consultation with his co-trustees to improve Calcutta, he had to assume large responsibilities. Initial mistakes in financial policy and in an understanding of Calcutta's needs must have had serious consequences. The Governor in Council believes that Mr. Bompas' colleagues and the public of Calcutta will share his view that the lines of policy were well and truly laid by Mr. Bompas. The Governor in Council desires also to thank Mr. J. C. K. Peterson, C.I.E., and Rai Bangshidar Banerjee Bahadur, C.I.E., for their excellent work as Land Acquisition Officers, and to acknowledge the valuable services of Mr. Shrosbree, late Chief Valuer and Surveyor, and of Mr. Maden, late Chief Engineer.

By order of the Governor in Council,

L. S. S. O'MALLEY,
Secy. to the Govt. of Bengal.

No. 3.—Notification.—The following draft of an amendment, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864, (Bengal Act V of 1864), the Governor in Council intends to make in the schedule of tolls in force on the Calcutta canals and Tolly's Nala and in the rules for the management of navigation thereon, published in notification No. 7, dated the 11th May 1915 (at pages 903-05 of Part I of the *Calcutta Gazette* of the 12th *idem*), is hereby published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 2nd July 1919, and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft amendment.

Delete items 13 and 15 and *read* item 14 as item 13.
Add as item 14.

14. (*1*) During the period of closure of the Tolly's Nala at Samookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *viâ* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(*2*) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(*3*) (*a*) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(*b*) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment.

(*c*) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(4) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

5. Allotment to Provinces.

Selected candidates who have successfully passed the above mentioned tests will be allotted, as probationers, to one or other province on a consideration of all the circumstances, including their own wishes; but the requirements of the public service will rank before every other consideration The allotment will also be subject to the right of the Government of India to make transfers between provinces if necessary.

INSURANCE.

No. 4038, dated Simla, the 9th June 1919.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

IN view of the results disclosed by the actuarial valuation of the assets and liabilities of the Post Office Insurance Fund as at 31st March 1912, the Government of India announced, in the Resolution from this Department No. 4016-4050-91, dated the 22nd May 1914, the grant of a bonus to the policy-holders. A further valuation of the Fund as at 31st March 1917 has again shown a substantial surplus so as to permit of the distribution of a considerable portion thereof without upsetting the financial stability of the Fund. The Governor-General in Council is accordingly pleased to grant, to the holders of policies in force on 31st March 1917, a reversionary bonus as an addition to and payable with the sum assured, at the rate of 1½ per cent. thereon in the case of Whole Life Assurances, secured by premiums payable throughout life or for a limited period, or under which no further premiums are payable, and 1 per cent. in the case of Endowment Assurances for each full year the respective policies were in force between 1st April 1912 and 31st March 1917. This bonus will be allowed in the case of policies now in force and of all claims which have arisen either by death or survivance since 31st March 1917 under policies in force on that date, but not to policies surrendered before the date of this Resolution. In the case of transferred or reduced policies, bonus will be allotted to the respective policies as they existed on 31st March 1917. In addition to the above mentioned bonus, an *interim* bonus at two-thirds of the above rates will be allowed in the case of Whole Life and Endowment Assurance policies which become claims by death between 1st April 1917 and 31st March 1922 for each full year they

were in force during that period. An *interim* bonus at the rate of 1 per cent. will be allowed in the case of Endowment Assurance policies which become claims by survivance between 1st April 1917 and 31st March 1922 for each full year they were in force during that period. The *interim* bonus will be based on the amount of the sum assured at date of death or survivance. No fraction of a rupee will be payable as bonus.

The Governor-General in Council is also pleased to direct that under Limited Payment and Endowment Assurance policies the maximum number of monthly premiums payable after this date will be 12 times the difference between the office age at entry and the age at which the premiums are to cease.

Ordered, that this Resolution be communicated to the several Departments of the Government of India, to all Local Governments and Administrations, to all Heads of Departments subordinate to this Department, and to the Accountant-General, Posts and Telegraphs.

Ordered, also, that a copy be forwarded to the Director-General of Posts and Telegraphs for necessary action.

All such applications shall state distinctly the grounds of application and shall be made at least one month before the date fixed for the election. 17. If the number of candidates is not greater than the number of vacancies, the presiding officer shall at once declare such candidates to be duly elected.

Cf. Local Board election rule 42 and Municipal election rule 28.

22. The presiding officer shall then and there declare such candidates as have the largest number of votes to be duly elected. Cf. Union Committee election rule 16, Local Board election rule 46 and District Board election rule 57.

24. If the number of candidates exceeds the number of vacancies, no candidate shall be declared to be duly elected unless 10 per cent. of the registered voters have appeared and recorded their votes, and the election shall be held to have failed.

Cf. Union Committee election rule 14 and Local Board election rule 43B.

25. If an election fails under rule 24, the presiding officer shall at once report the fact to the District Magistrate, explaining the circumstances which led to the failure. After considering all the circumstances the District Magistrate shall decide whether the vacancy or vacancies shall be filled by appointment or there shall be another election for the purpose. If, in his opinion, the failure was due to no default or neglect of the voters, he shall direct that another election shall be held and shall fix a date for such election, for which the register of voters previously prepared shall hold good.

Cf. Section 6(4) of the Act and Union Committee election rule 14.

MISCELLANEOUS.

Short title.

1. These rules may be called the Excess Profits Duty Rules, 1919.

Definitions.

2. In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the Excess Profits Duty Act, 1919 (X of 1919);
(*b*) "section" means a section of the Act;
(*c*) "Board" means a Board of Referees appointed under section 8; and
(*d*) "duty" means excess profits duty.

Changes of Ownership.

Where change of ownership has occurred between 1st of April 1912 and the beginning of the accounting period.

3. Where between the 1st April 1912 and the beginning of the accounting period there has been a change of ownership of the business, the standard profits shall be determined in accordance with clause (*a*) of sub-section (*1*) of section 6, except in cases where the person by whom duty is payable in respect of the business makes an application that the provisions of the Act shall apply as if there had not been a change of ownership.

Limitation for and contents of application under rule 3.

4 (*1*) An application under rule 3 shall be presented to the Collector at the time of furnishing the particulars referred to in section 11;

Provided that the Collector may receive an application after that date if he is satisfied that the applicant had sufficient cause for not presenting it before that date.

(*2*) An application shall state which of the options specified in clause (*b*) of sub-section (*1*) of section 6 the applicant elects for the determination of the standard profits of the business.

Where change of ownership has occurred during the accounting period

5. Where there has been a change of ownership during the accounting period the duty shall be assessed separately for the portions of the accounting period corresponding to the different ownerships. The duty may be assessed for each portion of the accounting period on any person owning or carrying on the business immediately before the end of such portion, and each of such portions shall be deemed to be the accounting period for the purposes of the proviso to section 4 and of clause (*a*) and the first proviso to clause (*b*) of sub-section (*1*) of section 6; and in all such cases the provisions of section 6 shall apply for the determination of the standard profits of the business as if there had not been a change of ownership.

Method of assessment.

6. On receipt of an application under rule 4 and in the case of an assessment under rule 5, the Collector shall determine the standard profits of the business according to the method desired by the person by whom duty is payable and may make such modifications in applying the Act and these rules as may be necessary to make the basis on which the standard profits are determined the same as that on which the profits of the accounting period are ascertained.

Modifications of standard and minimum profits.

7. Where under rule 5 duty is assessed on a person in respect of the profits of a business for a period of less than one year, the standard profits of the business shall be proportionately reduced and the proviso to section 4 shall be construed as if there were substituted for the amount of thirty thousand rupees a proportionately reduced amount.

Where change of ownership has occurred after the end of the accounting period and before the 1st of April, 1919

8. Where there has been a change of ownership after the end of the accounting period and before the 1st of April, 1919, the duty may be assessed on any person owning or carrying on the business at the end of the accounting period.

Non-residents.

11. (*1*) In the case of any person residing out of British India, all profits or gains accruing or arising to such person, whether directly or indirectly, through or from any business connection in British India shall be deemed to be profits accruing or arising within British India, and, subject to the provisions of the Act and these rules, shall be chargeable to duty in the name of the agent of any such person, and such agent shall be deemed to be for all the purposes of the Act and these rules the person by whom such duty is payable: [Modification of section 33 of Act VII of 1918 as applied.]

Provided that no person shall be deemed to be the agent of a non-resident person, unless he has had an opportunity of being heard by the Collector as to his liability.

Demand.

Notice of demand.

13. When the Collector has assessed the amount of duty to be paid by a person under section 13, he shall serve on the person a notice of demand in Form I set out in the Schedule to these rules specifying the sum so payable. [Modification of section 20 of Act VII of 1918 as applied.]
